## Notice of Hearing

### Licensing Act 2003

**Leeds**  
CITY COUNCIL

**Application No: PREM/04137/001**  
**Krol Mini Market, 2 - 4 Town Street**  
**Armley**  
**Leeds**  
**LS12 3AB**  
**Application for the grant of a premises licence**

Leeds City Council has received an application as set out above and, having received relevant representations, has convened a hearing before a Licensing Sub Committee on **10 April 2018** at the Civic Hall, Leeds, LS1 1UR at **10am**.

It is requested that all parties report to the ante-chamber of the Civic Hall for 9.30am to register their attendance.

Please see the attached notes on adjournments to hearing dates.

Attached to this notice is a document setting out:

- The rights of the parties
- The consequences if a party (or their representative) fails to attend
- Details of the procedure to be followed at the hearing.

Enclosed is a **Parties Notice of Intention** which should be completed and returned to the Council **as soon as possible** but no later than 5 working days prior to the hearing.

Under para 7 (1)(d) of the Licensing Act 2003 (Hearings) Regulations 2005 the licensing authority must state any points on which it considers clarification will be required. At this time, there are no particular points on which the authority considers that clarification will be required at the hearing.

Please be aware that the above only identifies any particular points that the licensing officer processing the application has identified. The Licensing Sub Committee may have points they ask for clarification on based on proceedings at the hearing.

#### **Adjournments – Important Information**

The Licensing Act 2003 and regulations made under it by the Secretary of State prescribes tight timetables for the determination of matters before a licensing committee. Every request to adjourn a hearing will be treated on it's own merits having regard to the interests of justice.

The licensing authority considers that adjournments should only be granted where it is necessary to do so to enable all relevant matters to be placed before the relevant sub-committee.

This will be the case for example where there are a large number of witnesses or documents and the time allowed for the hearing will not be adequate.

This will also be the case where the applicant or other party has indicated that they wish to attend the hearing but subsequently are unable to do so, for example because of family emergency or ill health. In these circumstances the party requesting the adjournment will be expected to provide proof of the relevant circumstances such as a doctors note.

The committee can, and may, deal with matters by looking at written documents. It may be necessary to do this rather than adjourn the hearing.

Adjournments will rarely be granted for reasons of convenience or due to the inability of the applicant's chosen representative to be present at the hearing. Whilst applicants and those making representations are entitled to have a representative present (whether legally qualified or not), this is not a requirement and the committee may properly deal with matters either by hearing from the parties in person or by considering written representations.

## Introduction and Aims

The Armley CIP area forms part of Leeds City Councils Statement of Licensing Policy and is a Cumulative Impact area. The area is situated within the Armley Ward, Inner West PWA. This report has been commissioned to analyse crimes and nuisance incidents both alcohol related and non-alcohol related to support the continuation of the CIP. The report will analyse crime and nuisance incidents for the period 01/10/2012 – 31/12/2017.

This document is protectively marked **RESTRICTED** under the government protective marking scheme. The approval of the authorising Officer is required for dissemination.

The product includes mapping data licensed from Ordnance Survey with the permission of the Controller of Her Majesty’s Stationery Office. © Crown copyright all rights reserved Licence number 100022119 2018. The Ordnance Survey mapping included within this publication is provided by West Yorkshire Police under licence from Ordnance Survey in order to fulfil its statutory responsibility to tackle crime and disorder. Persons viewing this mapping should contact Ordnance Survey copyright for advice where they wish to licence Ordnance Survey mapping for their own use. Unauthorised reproduction infringes Crown copyright and may lead to prosecution or civil proceedings.

## Methodology

A variety of Corvus searches were used to extract the relevant offence and incident details used in the subsequent analysis. The following general criteria were used:

Date Range:

- Date 1<sup>st</sup> Crimed: 01/10/2012 – 31/12/2017

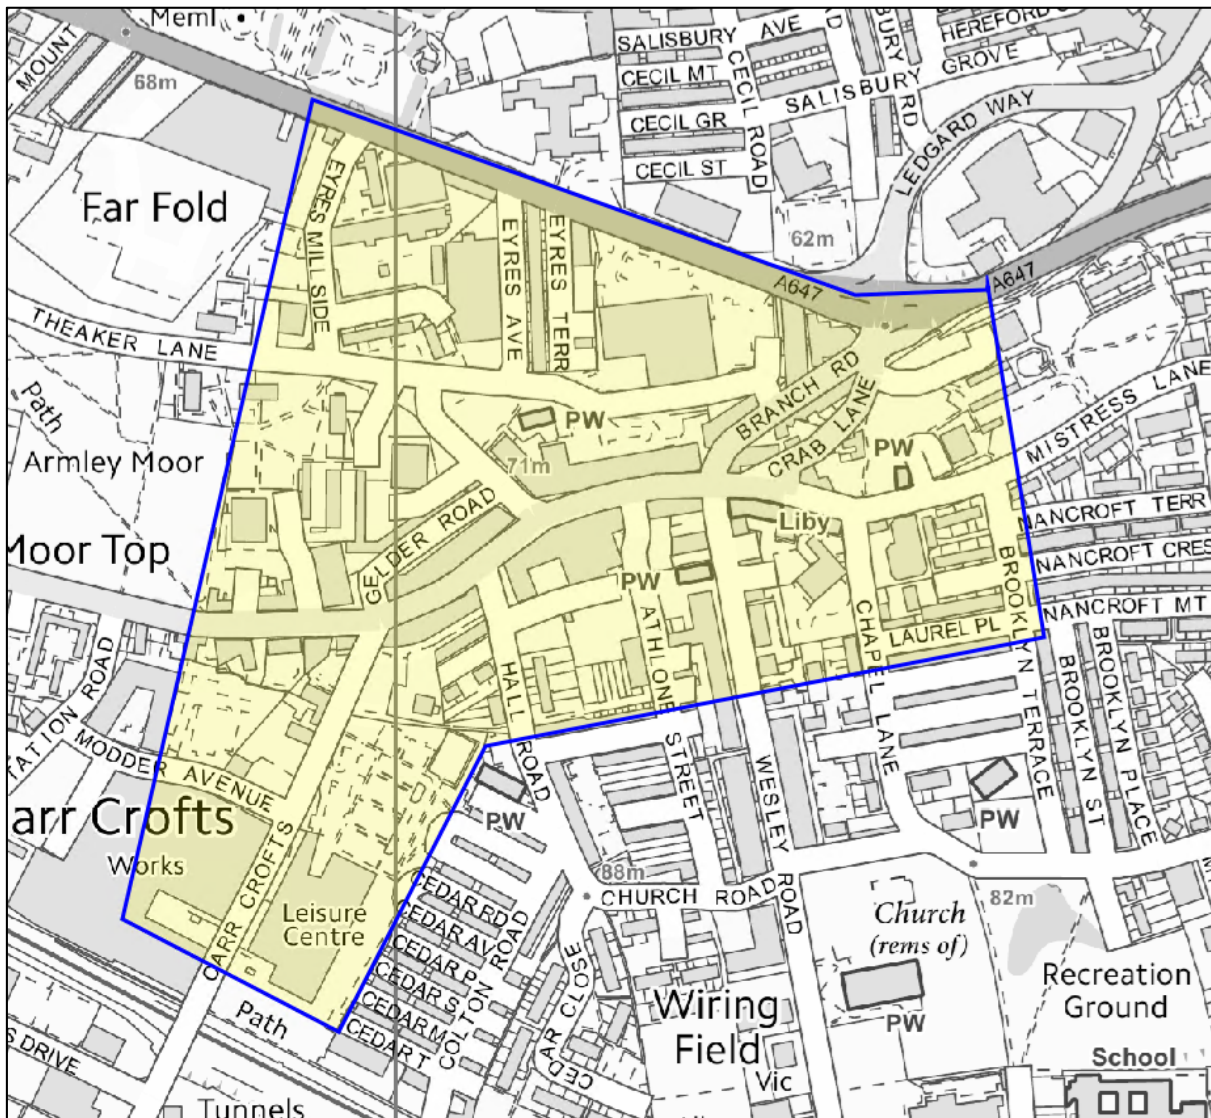

Flags:

- Crime: Y - No Crime: N

Further examination was performed using MS excel. Map Modeller, the Force GIS was used for mapping purposes and analysis. Additional reference has been made to source systems, including Niche. Same data may have been gathered from outside agencies, such as partners, other ACPO forces or the Home Office. Where this is the case it has been referenced accordingly.

The report will provide analysis of crime and incidents within the outlined area of Armley between October 2012 and December 2017 as shown in the map below.

Map 1: Armley CIP area

## Summary

---

- During the examined period 01/10/2012 – 31/09/2017 total crime in the Armley ward has risen year on year; this was also the trend within the Armley CIP.
- Offences in the Armley CIP area peaked during July 2015 and were lowest in January 2015. The average per month was 32 crimes. The largest increase was during Oct 2015 – Sep 2016 compared with the previous 12 months.
- Overall Shoplifting recorded the highest number of offences within the Armley CIP area, followed by Violence without injury, Other Theft, Criminal Damage and Violence with injury. Shoplifting and Criminal Damage were the crime types that increased year on year.
- Overall Violence with injury and Violence without injury recorded the highest number of offences that were related to alcohol. The top two occurrence types were Assault and Domestic Crime. Assault a person thereby occasioning them actual bodily harm recorded the highest number of offences followed Assault by beating. 109 crimes (5%) of crimes recorded were flagged as alcohol related. Alcohol related crimes peaked during October 2016 – September 2017.
- There were 139 (7%) crimes that were recorded at licensed premises within the CIP area. The top two crimes types were Violence with injury and Violence without injury. Offences peaked during October 2014 – September 2015 and October 2015- September 2016.
- Analysis of the crime types generally linked to Licensed Premises namely, Violence with injury, Violence without injury, Public Order offences, Robbery, Other Theft and Theft from Person increased year on year. Overall for these crime types, the area of concern is in the vicinity of Town Street, followed by Theaker Lane.
- The peak time for Violence with injury and Violence without injury within the CIP area was between 15:00 – 00:00. The most prevalent day was Saturday.
- Alcohol related crimes were centred on or in the vicinity of Town Street. Further offending was around Crab Lane, Theaker Lane and Burnsall Grange. The peak time was between 20:00 – 00:00. There was a smaller peak between midnight and 03:00. Saturday was the most prevalent day.
- There are concerns relating to the reliability of the alcohol related flag and the use of the flag when crimes are recorded. In the majority of other theft crimes, it was alcohol that had been stolen rather than being a contributory factor in the commission of the offence. On reviewing the data, it was also evident that not all offences involving the influence of alcohol was recorded with an alcohol related flag.
- The number of Nuisance related calls for services have fluctuated during the examined period, peaking during October 2016 – September 2017. Nuisance related calls peaked during August 2017.
- Alcohol related nuisance recorded the highest number Nuisance related calls, followed by Youth Nuisance. Alcohol related nuisance peaked during October 2013 – September 2014, then remained at similar levels during the last three year period. The main issue has been with street drinkers in the area of Town Street and Hall Road. These two streets contributed to 59% of all Alcohol related nuisance within the CIP area.
- The number of domestic related calls for service have fluctuated during the examined period, peaking during October 2014- September 2015. Domestic Incidents (non-crime) were located mainly around Burnsall Grange, Wesley Road, Westerly Rise and Stocks Hill. 32% calls referred to the suspect/s being under the influence of 'alcohol', in 'drink' or 'drunk'. Overall the peak time was 16:00 -22:00. Peak times for incidents where the offender was under the influence of 'alcohol', in 'drink' or 'drunk' were between 20:00 - 21:00 and 23:00 - 02:00.

## Performance Analysis

### Crime

The report examines the period between 01/10/2012 – 31/12/2017. Offences in the Armley ward have risen year on year; this is also the trend within the Armley CIP area as shown in the tables below.

Figure 30: ASB related calls broken down by qualifier

Alcohol related nuisance recorded the highest number of calls for service, followed by Youth Nuisance. Alcohol related nuisance peaked during October 2013 - September 2014, and then remained at similar levels during the last three year period. Youth related nuisance peaked during October 2016 – September 2017.

**Alcohol Related Nuisance.**

The main issue has been with street drinkers in the area of Town Street and Hall Road. Town Street and Hall Road contributed to 59% of all Alcohol related nuisance within the CIP area. There have been report of lone males causing a nuisance, being abusive and urinating in the street as well as groups of males and females. Groups of males and some females gather in the area to drink alcohol. Generally the groups are described as aged between 30 and 40 years old. The street drinkers become highly intoxicated, are aggressive to shop owners/customers and on occasions have been laid out on the floor outside businesses. The groups of drinkers sometimes become involved verbal disagreements, resulting on occasions into violence. There have been safeguarding concerns with males in the road putting themselves and drivers at risk. The street drinkers were reported to put their alcohol into soft drinks bottles and coffee cups, due to the area being a designated non-drinking zone. There were also reports of fighting inside and outside licensed premises. Incidents occurred throughout the day and night time. The peak time was between 14:00 – 18:00.
