A BRIEF EXPLANATION OF COUNCIL FUNCTIONS AND EXECUTIVE FUNCTIONS

There are certain functions that are defined by regulations which can only be carried out at a meeting of the Full Council or under a Scheme of Delegation approved by the Full Council. Everything else is an Executive Function and, therefore, is carried out by the Council's Executive Board or under a Scheme of Delegation agreed by the Executive Board.

The Area Committee has some functions which are delegated from full Council and some Functions which are delegated from the Executive Board. Both functions are kept separately in order to make it clear where the authority has come from so that if there are decisions that the Area Committee decides not to make they know which body the decision should be referred back to.

Report of the Director of Children's Services
To: Inner West Area Committee

Date: 17th February 2010

Subject: Children Services – Area Committee Performance Report

<p>Electoral Wards Affected: All</p> <p><input type="checkbox"/> Ward Members consulted (referred to in report)</p>	<p>Specific Implications For:</p> <p>Equality and Diversity <input type="checkbox"/></p> <p>Community Cohesion <input type="checkbox"/></p> <p>Narrowing the Gap <input type="checkbox"/></p>	
<p>Council Function <input checked="" type="checkbox"/></p>	<p>Delegated Executive Function available for Call In <input type="checkbox"/></p>	<p>Delegated Executive Function not available for Call In Details set out in the report <input type="checkbox"/></p>

Executive Summary
 To provide the Area Committee with a dashboard of Children Services performance data.

1.0 Purpose of This Report

This report introduces a dashboard of Children Services performance data disaggregated at an Area Committee or ward level.

2.0 Background

At the last meeting of the area committee members discussed an outline of performance indicators which would support the Committee to assess local progress against the ambitions of the Children and Young People Plan. The report does not at this stage seek to provide a full commentary and interpretation of progress against each individual indicator but to provide sufficient information to enable the Committee to further inform development of effective performance reporting. Comments made by members in the last cycle of committee meetings and by Children Champions have been included in this report. It is acknowledged that further work is needed, for example, to provide a more qualitative

analysis of progress particularly from the voice of children, young people, parents and carers.

3.0 Structure of the information.

Appendix 1 disaggregates information at an area committee level in 2 sections.

Section 1 - Performance of settings (e.g. Primary and Secondary schools, sixth forms, colleges, children centres, child minders) as assessed by OFSTED.

The information available in Appendix 1 covers Primary and Secondary school and sixth form OFSTED inspection judgments. Individual inspection reports can be seen on the OFSTED website.

Section 2 – is an analysis of a small number of the indicators selected from the Children and Young People Plan priorities. During the course of the next year this list of indicators will be further developed in discussion with the Area Committee Children Champions. Some data has been disaggregated at a ward level which has been included as Annexes to Appendix 1.

4.0 Implications For Council Policy and Governance

There are no implications for Council policy and governance. The report supports the agreed functions of the Area Committee as outlined in the Area Function Schedule and the Council's Constitution.

5.0 Legal and Resource Implications

There are no legal implications and the resource implications are a requirement for central performance management arrangements to develop local reporting arrangements, within existing resources.

6.0 Recommendations

Elected Members are asked to:

- note the report and comment on further development they would like to see;
- discuss and agree items they would like to take forward arising from the report.

Area Performance Reporting - Area Committee Cycle January / February 2009-10

SECTION 1

Primary Schools - Block A Performance Profile setting judgement - Inspection reports published on Ofsted website as at 12 Jan 2010.

Area Performance Reporting - Area Committee Cycle January / February 2009-10

SECTION 2

Priority: Improving early learning and primary outcomes in deprived areas

Measure: NI 76 - Reduction in number of primary schools where fewer than 55% of pupils achieve level 4 or above in both English and Maths at KS2

Inner East	Outer East	Inner North East	Outer North East	Inner North West	Outer North West	Inner West	Outer West	Inner South	Outer South	City Wide Result 08-09 ac yr	City Wide Target 08-09 ac yr
5 (of 23 primary schools)	4 (of 28 primary schools)	4 (of 16 primary schools)	0 (of 18 primary schools)	4 (of 19 primary schools)	0 (of 25 primary schools)	5 (of 15 primary schools)	3 (of 20 primary schools)	8 (of 22 primary schools)	1 (of 23 primary schools)	34 schools (of 209 schools)	11 schools (of 209 schools)

Info about PI

The data above in the areas relates to academic year 08-09. This indicator relates to maintained mainstream schools with end of KS2 cohorts with more than 10 pupils where less than 65% are achieving Level 4 or above in both English and maths at the end of KS2. Pupils' attainment is assessed in relation to the National Curriculum and pupils are awarded levels on the National Curriculum scale to reflect their attainment.

Comments

There has been an increase in the number of schools below this floor target, both in Leeds and nationally. The government's aim is that local authorities achieve reductions by 2011 of 40% in the number of schools below floor target compared to 2007 levels. For Leeds this means having 19 or fewer schools at this level in the next two years. School improvement advisors and School Improvement Partners will continue to provide targeted support to schools below floor target. Evidence shows that where schools receive interventions including rigorous monitoring, analysis of pupil progress and booster work that is effective in raising attainment. An additional initiative this year is the introduction of one-to-one tuition in English and maths for small groups of pupils who do not make the progress they should in small group or whole-class settings. Outcomes for schools involved in improvement programmes show a better than national rate of improvement. 2009-10 academic year provisional results will be available by Autumn 2010.

Priority: Providing places to go, things to do

Measure: LKI - IYSS9 - Number of Breezecard holders (figures correct at end of Dec 09)

Inner East	Outer East	Inner North East	Outer North East	Inner North West	Outer North West	Inner West	Outer West	Inner South	Outer South	City Wide Result	City Wide Target 09-10

Area Performance Reporting - Area Committee Cycle January / February 2009-10

Info about PI											
2009-10 was the first year this indicator was reported corporately. All young people under 19 can apply for the free card. Once members they can access a range of free events and activities and receive discounts at leisure and entertainment venues including all Leeds City Council museums and galleries.											
Comments											
The annual target for this indicator was exceeded in quarter 2 and quarter 3 sees the figure being extended further. This good performance is a result of four key factors: 1) the impact of the government's free swims initiative; 2) promotional work with the Youth Service; 3) the need to have a Breezecard to gain access to summer Breeze activities and events and to receive discounts at leisure centres and other venues; 4) the fact that take up is always higher in Quarter 1 and Quarter 2 in preparation for the school holidays; and 5) Breeze on tour takes place during quarter 2.											
A joint initiative is being undertaken by the Breezecard Team and Education Leeds to ensure all Leeds school children have a Breezecard by May 2010. This work will lead to a large increase in the number of Breezecard holders.											
Priority: Raising the proportion of young people in education or work											
Measure: NI 117*(LAA) - The proportion of young people aged 16-18 Not in Education, Employment or Training (also in the basket of poverty indicators)											
Inner East	Outer East	Inner North East	Outer North East	Inner North West	Outer North West	Inner West	Outer West	Inner South	Outer South	City Wide Result	City Wide Target 09-10
SEE ANNEX 1										8.1% (1911) (Dec 09)	7.80%
Info about PI											
Data relates to young people who were aged 16-18 on the day of the count. Young people aged 16 to 18 years are counted as EET (education, employment or training) if they are in:											
<ul style="list-style-type: none"> • Education (including gap year students who have an agreed deferred HE entry date) • Government supported training • Employment 											
Young people aged 16 to 18 years are counted as NEET (not in education, employment or training) if they are not engaged in one of the EET activities above, including those:											
<ul style="list-style-type: none"> • Undertaking a personal development opportunity, voluntary work or activity agreement • Seeking or waiting to start work or learning • Not available to the labour market (including those experiencing ill health, caring for child, or out of the country). 											
Comments											
The figures provided at Annex 1 are for December 2009.											

Area Performance Reporting - Area Committee Cycle January / February 2009-10

Measure: Not Known - percentage of young people whose status is Not Known as defined by national CCIS rules.

Inner East	Outer East	Inner North East	Outer North East	Inner North West	Outer North West	Inner West	Outer West	Inner South	Outer South	City Wide Result	City Wide Target 09-10
SEE ANNEX 1										10.7 % (2587) (Dec 09)	6.30%

Info about PI
Young people are classed as 'not known' if they have not had contact with the Connexions service within a certain period. How regular the contact needs to be depends on whether the young person is NEET or EET. Therefore the 'not known' figure includes young people who may be in contact with other services, but whose record has not been updated on the Connexions database.

Comments
The figures provided at Annex A are for December 2009.

Measure: NI 75 Proportion of pupils in schools maintained by the authority achieving five or more GCSEs at grades A*-C or equivalent, including English and Maths.

Inner East	Outer East	Inner North East	Outer North East	Inner North West	Outer North West	Inner West	Outer West	Inner South	Outer South	City Wide Result 08-09 ac yr	City Wide Target 08-09 ac yr
30.9%	51.2%	46.4%	52.0%	41.2%	62.1%	27.1%	41.3%	26.0%	49.3%	45.90%	51.60%

Info about PI
The data above in the areas relates to academic year 08-09. This indicator covers the number of pupils achieving 5 or more A*-C GCSEs or equivalent including English and Maths at KS4 as a percentage of the number of pupils at the end of KS4. The school element relates to all maintained mainstream schools including Academies. Key Stage 4 (KS4) is the stage of the National Curriculum between the ages of 14 and 16 years. GCSE is the principal means of assessing pupil attainment at the end of compulsory secondary education. Grades A* to G are classified as passes, grades A* to C as good passes and grades U and X as fails.

Comments
Please note: Results are included for Intake, South Leeds, West Leeds and Wortley schools which are now closed. Results are also included for David Young Community Academy.

Area Performance Reporting - Area Committee Cycle January / February 2009-10

Priority: Reducing teenage conception

Measure: NI 112 Under 18 conception rate

Inner East	Outer East	Inner North East	Outer North East	Inner North West	Outer North West	Inner West	Outer West	Inner South	Outer South	City Wide Result 08-09	City Wide Target 09-10
SEE ANNEX 2										48.1 per 1,000 females aged 15-17) (677)	42.7 per 1,000 females aged 15-17)

Info about PI
 The 2007 rate for Leeds is 48.1 per 1000 female population aged 15-17, a reduction from the 2006 figure of 50.9 (conceptions per 1000 female population aged 15-17), still above the national rate of 41.7.

Comments
 The next nationally produced city wide data will be available in February 2010 and will be the data relating to 2008. However, although the first and second quarter data for 2008 showed an increase, the third quarter for 2008 is 46.3, producing a rolling quarterly average of 49.7 (conceptions per 1000 female population aged 15-17). It should also be noted that overall the national rate has fallen and within core cities, Leeds is the second lowest above Newcastle.

Levels of teenage pregnancy vary immensely between localities. Better quality data providing more timely information at the local level is supporting the development and coordination of services which are starting to have a positive impact on reducing the level of teenage pregnancy across the city. Priority actions will focus on recognising the interdependencies between teenage pregnancy and improving other outcomes for children and young people; providing young people with the means to avoid early pregnancy; tackling the underlying circumstances that motivate young people to want to, or lead them passively to become parents

at a young age; working in effective partnerships to ensure universal provision for all young people with strengthened delivery and services to those most at risk; and acknowledging that effective interventions require significant time to deliver sustainable change.

Recent achievements include:

- The Contraception and Sexual Health (CaSH) service from Sept 09 will be offering an after school contraception outreach clinic in the six priority wards.
- From Sept 09 on-site contraception clinics will be running in the three main FE providers in the city.
- The Family Nurse Partnership is operational and is working with young pregnant women and mothers and their families to improve early parenting, antenatal health, enhance child development and school readiness and link the family to wider social networks and employment.
- The 'Be Smart:Use a Condom' Publicity Campaign was highly commended at the 'Making a Difference in Yorkshire and Humber Awards'

Area Performance Reporting - Area Committee Cycle January / February 2009-10

Priority: Strengthening Safeguarding

Measure: NI 68 Percentage of referrals to children's social care going on to initial assessment.

Inner East	Outer East	Inner North East	Outer North East	Inner North West	Outer North West	Inner West	Outer West	Inner South	Outer South	City Wide Result 08-09	City Wide Target 09-10
SEE ANNEX 3										54.6% (4732 - referrals that have gone onto initial assessment / 8667 - total no. of referrals)	60%

Info about PI

This indicator helps to determine the appropriateness of referrals to Children & Young People Social Care (CYPSC). A 'referral' is defined as a request for services to be provided by children's social care services. This is in respect of a case where the child (aged 0-17 years inclusive) is not previously known to the local authority, or where the case was previously open but is now closed. A referral can be made by a professional from one of many different agencies (typically in the health and education sectors), but for the purposes of this indicator a more broader term is used which encompasses referrals from any source, including self-referrals. Local authorities will make an 'initial consideration' to decide, when looking at the details of the referral, whether there are concerns about the child's health and development or actual and/or potential harm that justifies an initial assessment. The initial assessment is a brief assessment of the child's needs, to be carried out by children's social care within a maximum of seven working days of the date of referral.

Comments

This is a bell shaped PI and the optimum range for this indicator is between 49% and 63%. Leeds performance falls well within this optimum range and is broadly comparable with statistical neighbours and the national average.

A project is being undertaken with the contact centre and partners agencies to screen referrals to ensure children's needs are handled by the right agency at the right time. The impact of this will be a reduction in the number of inappropriate referrals to the service therefore allowing the service to spend more time on initial assessments for children that meet the service's thresholds.

NEET and Not Known Breakdown - December 2009 Figures

It should be noted that these figures will not include young people who are in education or training in Leeds and not resident in Leeds, those young people are included in the headline figures for the authority.

If a young person's address is unknown it is recorded as the Connexions Centre. This means the large number of young people in the city centre does not reflect the number of young people who actually live in the city centre.

Errors in the recording of postcode on the Connexions database mean there are a number of young people who can not be matched to a ward. For this reason these figures should be viewed as indicative.

Ward Wedge	Ward	NEET		Not Known		Number of young people
		Count	%	Count	%	
Inner East	Gipton & Harehills	110	10.45%	103	9.78%	1053

Teenage Pregnancy

Annex 2

The data in the table below is produced nationally by the Office for National Statistics on a three year cycle and covers the period from 2004-06. This is the most up to date ward data available. Old ward descriptors have been used as the ward boundaries in Leeds changed in spring 2004. The headline figure for Teenage Conception in Leeds for 2008 will be made available in February 2010. It is expected that the ward breakdown (using the current ward boundaries) for 2005-07 will also be available in February 2010. The 2006-08 ward breakdown data is due in November 2010.

The target is to reduce the under 18 conception rate by 55% by 2010 (compared to the 1998 baseline rate). The rates are calculated by the national Teenage Pregnancy Unit. There is a 14 month time lag in the release of conception statistics as they are partly compiled from birth registrations which may not be available for up to 11 months after the date of conception. The table below shows the ward rates for Leeds 2004-06. Numbers are aggregated over three years because at ward level numbers can vary significantly year on year. The wards have been allocated to area commit not been calculated as this would mask the variation.

Management Areas	Ward	Under 18 conception (number) (2004-06)	Under 18 conception (rate) (2004-06)	Index of Multiple Deprivation Score 2007
City wide		2049
