

Basic Need Update for Area Committee Report – 05 August 2013

Information in italics was presented to Area Committee Verbally as Executive Board Papers were not published.

Generic for all reports:

Since the Basic Needs programme began in 2009, 1020 additional reception places have been approved, with a further 98 that have recently been the subject of statutory notice and are awaiting a final decision and a further 45 places which have been consulted upon over the last 6 weeks.

For 2014 -2016, a total of 50 forms of entry are required to manage the increase in pupil numbers with 22 forms of entry required for 2014. Of the 22 forms of entry for 2014, 1/3 are permanent provision and 2/3 are bulge cohorts to manage a short term, one off increase in pupil numbers.

For secondary places, the pressure from current known birth rate has already been seen in the South for September 13 admissions to Year 7, by 2017 there will not be any spare places across the city. 7 new secondary schools will be required across the city to accommodate this pressure (8 if the proposed free school for the city centre does not come to fruition), depending on whether existing schools can expand their admissions.

Broken Down for areas

Inner North West
