As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality, diversity, cohesion and integration.

A **screening** process can help judge relevance and provides a record of both the **process** and **decision**. Screening should be a short, sharp exercise that determines relevance for all new and revised strategies, policies, services and functions. Completed at the earliest opportunity it will help to determine:

- the relevance of proposals and decisions to equality, diversity, cohesion and integration.
- whether or not equality, diversity, cohesion and integration is being/has already been considered, and
- whether or not it is necessary to carry out an impact assessment.

**Directorate:** Children’s Services  
**Service area:** Sufficiency and Participation

**Lead person:** Rachael Davison  
**Contact number:** 0113 2475793

1. **Title:** Proposal to increase primary school places in Harehills.

Is this a:

- [ ] Strategy / Policy  
- [ ] Service / Function  
- [x] Other

If other, please specify

2. **Please provide a brief description of what you are screening**

The proposal is to expand primary places at Hovingham Primary School from a capacity of 420 pupils to 630 pupils with an increase in the admission number from 60 to 90 with effect from September 2017.

3. **Relevance to equality, diversity, cohesion and integration**

All the council’s strategies/policies, services/functions affect service users, employees or the wider community – city wide or more local. These will also have a greater/lesser relevance to equality, diversity, cohesion and integration.

The following questions will help you to identify how relevant your proposals are.
When considering these questions think about age, carers, disability, gender reassignment, race, religion or belief, sex, sexual orientation and any other relevant characteristics (for example socio-economic status, social class, income, unemployment, residential location or family background and education or skills levels).

If you have answered **no** to the questions above please complete **sections 6 and 7**

If you have answered **yes** to any of the above and;
- Believe you have already considered the impact on equality, diversity, cohesion and integration within your proposal please go to **section 4**.
- Are not already considering the impact on equality, diversity, cohesion and integration within your proposal please go to **section 5**.

4. Considering the impact on equality, diversity, cohesion and integration

If you can demonstrate you have considered how your proposals impact on equality, diversity, cohesion and integration you have carried out an impact assessment. Please provide specific details for all three areas below (use the prompts for guidance).

- **How have you considered equality, diversity, cohesion and integration?**
  (think about the scope of the proposal, who is likely to be affected, equality related information, gaps in information and plans to address, consultation and engagement activities (taken place or planned) with those likely to be affected)

The proposals are to increase the number of primary places in the Harehills area. The demographics of the area were considered when working up the proposal, along with parental preference trends, and projections, and it was concluded that additional capacity is required. The types of schools in the area were also considered, to ensure we adhere to our legal duty of ensuring parents are offered choice and diversity.

We consulted those affected on this proposal from 13 June 2016 to 8 July 2016, including parents and carers of pupils, governors and staff at the school, nearby schools, the Diocese, Councillors, MPs and local residents.
To ensure maximum engagement with families we asked the school to promote the consultation on the proposals through their usual methods of communication such as the school website and newsletters—it is worth noting that the school serves a diverse community and uses the ‘Google Translate’ service on its website to enable wider participation. Documents used during the consultation were available from the school and via links to the council’s webpage. These documents could be requested in different languages. Informal consultation drop in sessions took place which provided an opportunity for stakeholders to meet council officers, ask questions and to tell us what they thought of the plans. Where there was a language barrier in most instances staff members, children or other parents/carers were able to support with translation. These sessions were planned at school drop off and pick up times and also took place to coincide with a parents’ evening and parents’ café session to ensure we were available to speak to people at convenient times and to assist working parents/carers and residents. At one of the sessions an officer from the Leeds City Council Gypsy Roma Travellers Outreach and Inclusion Team was in attendance to ensure that a wider range of parents were able to discuss the proposals in their first language.

Stakeholders were able to give their views on the proposals by completing a consultation response form available either from the school offices, online or at the drop in sessions where assistance was offered if required.

The majority of those who responded were in support of the expansions. There were a total of 66 responses with 63 of the respondents supporting the expansion at Hovingham Primary School.

- **Key findings**

  (think about any potential positive and negative impact on different equality characteristics, potential to promote strong and positive relationships between groups, potential to bring groups/communities into increased contact with each other, perception that the proposal could benefit one group at the expense of another)

From the equality impact assessment the sufficiency and participation team found that these proposals would have a positive effect on some of the 6 categories listed below;

- Age
- Gender
- Religion
- Ethnicity
- Disability
- Sexual orientation

Additional learning places create more opportunities for all pupils to be supported and to meet their needs at every age, whether they are male or female, and in every school. This proposal supports that aim and would not have an adverse impact on any child or young person who attends the school included in this proposal. The school ethos and accommodation would ensure that all children and young people who attend can take a full part in the school curriculum in an environment that supports their specific needs regardless of religion, ethnic background and nationality. Expansion of the existing school will ensure that it continues to support the needs of its community by providing more places for local children in a multi ethnic and multi faith area of the city. Children and young people with special educational needs and disabilities could access a school...
place if the provision can match their individual needs. Any new accommodation would meet the Equality Act 2010 and would therefore be accessible for all.

Hovingham Primary is an area of high demographic need which is continually rising as families move into the area. During this academic year we have created additional temporary cohorts in local primary schools to accommodate the children needing a school place. This proposal would ensure that additional primary places are created permanently in the Harehills area for primary aged children from September 2017 onwards.

This proposal would have a positive impact on promoting choice and diversity for local families who are applying for a school place. Hovingham Primary is very popular with local families, benefits from strong leadership and management and already serves a diverse community. An increase in admission numbers would mean that more pupils would benefit from the quality of education and care provided at the school.

- **Actions**
  (think about how you will promote positive impact and remove/ reduce negative impact)

If the proposals are taken forward, the extra primary places will be made available in reception from September 2017. All parents/carers will therefore have the option of applying for these places or choosing alternative schools.

During the consultation process, all views and responses are considered equally. If the proposal is approved, during the design process for new school accommodation, the plans would be shared with stakeholders and consulted on. Every effort would be made to communicate and consult with all equality protected characteristics regarding the new accommodation.

Through the design process, any new accommodation to facilitate the expansion of the school would be compliant with the Equality Act 2010. This would ensure that the building is accessible to all users; students, staff and visitors.

5. If you are **not** already considering the impact on equality, diversity, cohesion and integration you **will need to carry out an impact assessment**.
