The workshop is also an opportunity for conversations between service leads and members of the public at the community committee. Look to identify opportunities for initiatives that promote physical activity in young people such as 'Play Streets'. Use funding to support local groups who are providing activities for young people through both YAF and Wellbeing.	Jan Burkhardt / Jason Minot	Much of the actions from this goal were completed as part of the workshop session. However, Ward Councillors and Communities Team officers will continue to look for opportunities to promote Physical Activity for young people in INE. Links were made between local contacts that were interested and officers so that further consultation could take place.	The vision for the new cultural strategy is for it to have a local focus, instead of it just focussing on the city centre. The localised workshops will ensure that the local interpretation of culture is built into the strategy. On 16th December 2016 Department for Culture Media and Sport announced that the European Capital of Culture competition will go ahead despite continuing Brexit negotiations. The news came two weeks after the Leeds 2023 brand was launched with the more than 150 arts, culture, business, education and media organisations backing the bid. What do you think are the three key priorities that would help reduce the Health and Wellbeing Gap? 2. Working with citizens is key to addressing the gaps. How do you think we can ensure that this is meaningful, open and honest? 3. How would you like your Community Committee area to be part of the conversation as the Leeds Health & Care Plan develops?	Nigel Gray Tony Cook	Workshop took place as table discussions with three tables made up of residents, health professionals, stakeholders, elected members and council officers. Feedback provided back to the Health Partnerships Team. Potential scope for a follow-up session to explore issue further.	The city has identified four key programmes as our collective priority areas: • Prevention ("Living a healthy life to keep myself well") – Helping people stay well, keep active and feel good about themselves. • Proactive Care & Self-Management ("Health and care services working with me in my community") – Providing help and support to people who are ill or at risk of becoming ill, or those who have ongoing conditions. The help will enable them to do as much as they can to look after themselves and manage their condition to remain healthy and independent while living normal lives at home with their loved ones. • Optimising Secondary Care ("Hospital care only when I need it") – Reducing the length of time people stay in hospital so they can return to their homes and loved ones as soon as safe to do so. • Urgent Care and Rapid Response ("I get rapid help when needed to allow me to return to managing my own health in a planned way") – Making sure people with an urgent health or care need are supported by the right professionals at the right time. Following approval from Leeds Health and Wellbeing Board, Leeds will embark on a city-wide conversation about the future of the health and care. Local communities are crucial to help make these changes. As part of the city-wide conversations each of the Community Committees will be engaged on how best to continue the local conversations began earlier this year and further improve the Leeds Health and Care Plan.
