Section C: Identify the Information, Privacy and related risks

Identify the key risks. All risks identified from the questionnaire in section B should be included, plus any others of relevance. Describe the actions you could take to reduce the risks and any future steps which would be necessary (e.g. the production of new procedures or future security elements for systems).

Please note if your project has a large number of risks there is an alternative spreadsheet you can use, (please ask your IG officer) or simply continue onto a separate sheet.

Risk	Solution	Result: is the risk eliminated, reduced, or accepted?	Evaluation: is the final impact on individuals after implementing each solution justified, compliant and proportionate response to the aims of the project?
