

Equality, Diversity, Cohesion and Integration Screening

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality, diversity, cohesion and integration.

A **screening** process can help judge relevance and provides a record of both the **process** and **decision**. Screening should be a short, sharp exercise that determines relevance for all new and revised strategies, policies, services and functions.

Completed at the earliest opportunity it will help to determine:

- the relevance of proposals and decisions to equality, diversity, cohesion and integration.
- whether or not equality, diversity, cohesion and integration is being or has already been considered, and
- whether or not it is necessary to carry out an impact assessment.

3. Relevance to equality, diversity, cohesion and integration

All the council's strategies and policies, service and functions affect service users, employees or the wider community – city wide or more local. These will also have a greater or lesser relevance to equality, diversity, cohesion and integration.

The following questions will help you to identify how relevant your proposals are.

When considering these questions think about age, carers, disability, gender reassignment, race, religion or belief, sex, sexual orientation. Also those areas that

impact on or relate to equality: tackling poverty and improving health and well-being.

If you have answered **no** to the questions above please complete **sections 6 and 7**

- Believe you have already considered the impact on equality, diversity, cohesion and integration within your proposal please go to **section 4**.
- Are not already considering the impact on equality, diversity, cohesion and integration within your proposal please go to **section 5**.

4. Considering the impact on equality, diversity, cohesion and integration

If you can demonstrate you have considered how your proposals impact on equality, diversity, cohesion and integration you have carried out an impact assessment.

Please provide specific details for all three areas below (use the prompts for guidance).

- **How have you considered equality, diversity, cohesion and integration?** (think about the scope of the proposal, who is likely to be affected, equality related information, gaps in information and plans to address, consultation and engagement activities (taken place or planned) with those likely to be affected)

The lift replacement programme will reduce the risk of disabled residents not accessing their homes, as well as providing continual service to residents, through the renewal of the current lifts in blocks across the City. Resident's consultation will be undertaken as part of the pre-start activities and any special needs that residents require will be taken into consideration when planning and undertaking the lift replacement works.

- **Key findings** (think about any potential positive and negative impact on different equality characteristics, potential to promote strong and positive relationships between groups,

potential to bring groups/communities into increased contact with each other, perception that the proposal could benefit one group at the expense of another)

This proposal identifies positive impacts for customers and vulnerable tenant groups in terms of improving access to their homes through modern lifts complying with the Equality Act.

• Actions

(think about how you will promote positive impact and remove/ reduce negative impact)

Not undertaking the works may increase the risk of residents not accessing their homes due to the lift operational failures.

5. If you are not already considering the impact on equality, diversity, cohesion and integration you will need to carry out an impact assessment.
