Subject: FW: Music license till 02.00 am

Hi Matthew,

I would like to object to this application

I would like to register an objection to the Stadium's request to add music to their licence.

The stadium is in Headingley, which is a residential area and is therefore not suited to being used essentially as a nightclub. This area already has a history of problems relating to noise, alcohol related disorder and other public nuisance. The fact that this is an issue in this area can be existing strictures by the police against either the granting of new or the extension of existing licences for sale of alcohol.

There is a recent history of noise nuisance from the stadium when they have operated temporary extensions. This has negatively affected this community and demonstrates clearly that this organisation cannot be trusted to behave in a responsible manner when tasked with holding a late licence. The stadium company in my experience behaves as a bad neighbour, consistently ignoring the community in which it is based or any concerns that we have as regards their impact upon us in terms of noise nuisance. They clearly cannot be trusted to behave in a responsible fashion within the terms of the licence.

This area is a residential one containing predominantly families with young children. It is not one which is suitable for the establishment of late night entertainment and no such licence should be granted.

Subject: Objection to Headingley Stadium proposed variations to Headingley Stadium and South Stand licences

Dear Matthew

I am emailing regarding the licensing applications below because I am unable to find the form on-line. I understand the guidance says this is acceptable form of objection.

I object to the following applications:

- 1) Heading Pavilion – Variation – Last date for Representations 25th March 2019
- 2) South Stand – Variation - Last date for Representations 12th April 2019
- 3) South Stand – Variation - Last date for Representations 12th April 2019

I objection to the Stadium's request to add music to their licence and for any extension to alcohol sale times. Please register my objection against the above applications.

The Stadium was designed for sports events. This is its core business. The Stadium carries on its core business in a residential area. If it wants to extend its core business in to licensed music venues, then it should instead relocate - as other stadiums in the country have done. Alternatively, it could develop other business activities to its core business - such as those proposed - in an area more suited to those activities. I suggest the central business district where there is an established night life.

The stadium is in Headingley which has a history of problems relating to public nuisance. Headingley is an area with strict alcohol controls on licensed establishments because of these problems. For this reason alone, the risk to the community of a large scale corporate drinking and music venue running late night events is already established. It has created problems in the past and there is no reason why it would not create problems of public disorder and public nuisance in the future. Past experience has shown that such a venture would draw people away from the city centre. It would reintroduce the concept of Headingley as a 'party area' where people can play music and drink until the early hours. This has been a big problem within the past few years. It has taken time to bring the problem. Now Headingley is a popular area with students who want to live amongst families and enjoy somewhere quieter to study.

The stadium has recently caused a noise nuisance when it operated a temporary extension to its licence (for an example see below) and the community has been negatively affected. The stadium have shown no interest in this problem, which has occurred repeatedly over a number of years, and has made no attempt to address it.

The new South stand music systems have already caused significant upset to others and me as the noise appears to have a different, more intrusive, quality which has sometimes been overwhelming and cannot be ignored. When complained to directly, it is my experience that the Rugby Stadium refer to their entitlement under law rather than show an interest in addressing the problem directly. So, it's important they are not given an additional 'license'.

In addition to the above, in the recent past the Cricket school has rented out their facilities to private contractors for weekends in December. Despite repeated complaints to the noise nuisance service from local residents about music leaking from the building until 1AM it was never stopped. At the moment we cannot trust the stadium to take responsibility for ensuring that conditions are adhered to, until match day events

create no noise nuisance any extension is not acceptable.

Yours sincerely,

Subject: Music license objection before tonight's deadline

Dear Matthew

This is the objection that I want to place today.

I am emailing licensing because I cannot find the form online. The guidance says this is acceptable.

I would like this objection to be placed against these three applications

Heading Pavilion – Variation – Last date for Representations 25th March 2019

South Stand – Variation - Last date for Representations [12th April 2019](#)

South Stand – Variation - Last date for Representations 12th April 2019

I would like to register an objection to the Stadium's request to add music to their licence.

The Stadium was designed for sports events. This is its core business. It is in a residential area and if it wants to extend its core business in this way it should instead relocate as other stadiums in the UK have.

The stadium is in Headingley which has a history of problems relating to public nuisance. Headingley is an area with strict alcohol controls on licensed establishments because of these problems. For this reason alone we cannot risk having a large scale corporate drinking and music establishment in the area openly running late night events as it would create problems of public disorder and public nuisance as experienced before. It would draw people away from the city centre as has happened in the past. It would re-introduce the concept of Headingley as a party area where people can play music and drink until the early hours. This was a big problem a few years ago which is now under control in this area. It is now a popular area with students who want to live amongst families and enjoy somewhere quieter to study.

There is a recent history of noise nuisance from the stadium when they have operated temporary extensions (for one example see below) . This has negatively affected this community. The stadium have shown no interest in this problem which has occurred repeatedly over a number of years and have made no attempt to address it.

The new South stand music systems have already caused significant upset to people in this community as the noise appears to have a different, more intrusive quality which has sometimes been overwhelming and cannot be ignored. When complained to directly, it is my experience that the Rugby Stadium refer to their entitlement under law rather than show an interest in addressing the problem directly so it's important they are not given additional "license."

In addition

1) Harm to children

Children particularly need to be free to sleep and study. The stadium music is so intrusive it can wake my children from deep sleep.

On Boxing Day the stadium played music [at 930am](#) and this woke my 9 year old daughter from a deep slumber. She had got up very early on Christmas Day and was very tired yet the volume of the music was so high that it woke her up. This application concerns me as getting

to sleep is a much bigger problem. She cannot sleep on match nights until the music stops [at 10pm](#) but as matches are on a Friday we manage. Evening music will definitely affect both my childrens' ability to complete homework and to sleep at a reasonable time.

We don't live in one of the closest streets to the stadium yet noise is still a significant issue. This is a much more serious problem for the many families who live nearer than us, on Chapel Lane.

2) prevention of public nuisance

In the past the Cricket school has rented out their facilities to private contractors for weekends in December. Despite repeated complaints to the noise nuisance service from local residents about music leaking from the building [until 1am](#) it has not been stopped. Doors that are meant to be shut as a condition of the licence are regularly found propped open when we visit the site to complain. staff have told us "they can't do anything about it because it is with a private contractor".

At the moment we cannot trust the stadium to take responsibility for ensuring that conditions are adhered to, until match day events create no noise nuisance any extension is not acceptable

many thanks

Sent: 24 March 2019 10:02
To: Entertainment Licensing
Subject: objection to licence - Headingley Pavilion

To whom it may concern

I wish to object to the licence application made by Headingley North-South Stand Limited to vary the licence for the premises known as Headingley Pavilion, Emerald Headingley Stadium, St Michael's Lane, Headingley Leeds LS6 3BR to vary the existing licence for: Entertainment similar to live music, recorded music or dance and the provision of late night refreshment

The notice states the applicant proposes to vary the terms in the following way:

To provide entertainment similar to live music, recorded music or dance on Sundays 12-22.30 and the provision of late night refreshment Monday to Saturday 23.00 - 02.00.

The stadium is a massive source of disturbance. Over the years, the activity and levels of noise has steadily increased in a manner which has appeared to be reasonable year on year but when seen cumulatively now blights the lives of local residents. These are the main reasons:

1) We currently have to put up with the music and razzmatazz, not just the crowd noise, that accompanies matches and which disturbs our peace. To have music all day on Sundays, in addition to what they do now, is just not tenable especially if it is to be in the summer months when we will not be able to enjoy the peace of the garden. We work very hard during the week and like most other people, we appreciate being able to relax at home at the weekend which will not be possible if this licence is granted. It should also be borne in mind that there is the danger the 'music' will not just start and end at the times stated, music blares out a long time prior to any event and goes on for longer at the end. The Stadium management keep telling us their new tannoy system has reduced the noise pollution escaping from the stadium. This is not true as the new stand acts as a funnel for the noise. We can hear the music and announcements very clearly in our front room with the window closed.

2) The Stadium's ability to provide late night refreshment provides an opportunity for drunken revelling in the streets. This is evidenced at Christmas when they hold late night parties on the opposite side of the road in the Cricket School. As people are not allowed to smoke inside, they spill out to block pavements and the road, and they are joined by their non smoking friends so it can be quite intimidating if one has to walk past them such as walking the dog.

3) We have a child sleeping in the front bedroom which overlooks St Michael's Lane, can you imagine the problems they would have trying to sleep as the noise of music on Sundays and drunks potentially every other night. In the summer months, we can be disturbed in the back bedroom so it will only be worse at the front.

4) In addition, events of this kind also bring more traffic to the area with the associated parking problems. Leeds City Council is making a big deal about the quality of the air and pollution, why should we have to put up with more traffic in our area and the problems with pollution, idling engines

and parking. We also have to contend with the bridge on St Michael's Lane being closed after Rugby/ cricket matches which restricts when we can leave our house or return home, this will add to the inconvenience as I have no doubt the bridge will also be closed after these events.

I know LCC support the stadium from an economic perspective but we like living in this area (having moved in over 30 years ago when we did not have these problems) and we have a good neighbourhood. I believe this application will cause harm and loss of amenity to the local area. **Please have some consideration for the residents who live next to the stadium and do not diminish our quality of life even further**

Best wishes

Subject: Objection to license at Headingley Pavillion

Hello

Can you please consider my objection to the application for variation of license for the Headingley Pavillion. As far as I am aware this would enable music and dance till 2am.

I am greatly concerned that this application and other similar variations of licenses held at Headingley cricket and rugby club changes the character, usage and main purpose of this business. We moved here knowing that we would be living next door to a popular sporting centre, since then it has grown in size and popularity taking on the role of education centre linking with Leeds Beckett. However this application shows a shift in business strategy to become a centre for entertainment that has nothing to do with sport or education.

Headingley already has huge issues with alcohol use and the public nuisance and safety issues that arise from late night alcohol premises that aim their marketing at the young student population. The cricket and rugby ground are near enough to the 'Otley run' to be part of that problem but is right next door to established family communities in the Triangle area of Chapel Lane/Rochester Terrace/Broomfield Crescent and the Turnways area.

The late night music and drinking and behaviour that inevitably comes from the to-oing and fro-ing to these places will cause harm and a shift in the general atmosphere and feel of this community. We continue to have problems with drunken students shouting in the streets, banging car wing mirrors, waking up neighbours and their families as they stagger home through the surrounding streets or waiting around for taxi's.

Please consider these issues if you want a viable community to remain in Headingley.

Surname

First name(s)

Address (incl postcode):

Please note that a full copy of your representation (including your name and address) will be sent to the applicant and will be a public document at any hearing of this matter.

Please refer to our Guidance Note – GN-M Guidance on making representations for further information and alternative options.

Section 4 – Representation grounds

The representation is relevant to one or more of the following licensing objectives:

Please tick relevant box(es)

Prevention of crime and disorder
Prevention of public nuisance
Protection of children from harm
Public safety

☐
☐ This one
☐ This one
☐

Please select :

☐ I object to the application being granted at all

☐ I object to the application being granted in its current form* This one

*If you choose this option remember to tell us in the next section what changes you would prefer to see.

The grounds of the representation is based on the following:

Heading Pavilion – Variation – Last date for Representations 25th March 2019

This application is made to vary the existing premises by way of the following:

- To add late night refreshment Monday to Saturday 23:00 until 02:00 hours;
- To add entertainment similar to live music, recorded music or dance on Sundays 12:00 until 22:30 hours;
- Relocate the bar areas on the first and third floors of the premises and the addition of a new bar in the private dining area on the third floor of the premises; and
- The removal of all bar areas on the ground floor to facilitate kitchen and staff areas.

This representation is relevant to the following licensing objectives:

- Prevention of public nuisance
- Protection of children from harm

I would like to object to the first two bullet points of the application regarding refreshment and entertainment similar to live music, recorded music or dance until late evening/early hours of the morning.

When I first came to live in this area 43 years ago, the only noise coming from the Cricket and Rugby grounds was that of people clapping, cheering and shouting their encouragement to the players. This took place in the afternoon or early evening and was a pleasant sound. Then PA systems were introduced. These weren't just used to address the spectators, however. They were used to create as much noise as possible. At least it only happened during the daytime or early evening.

The stadium now wishes to create noise and disturbance until late into the night and early morning.

This is a residential area inhabited by families with young children who have to get up early for school, working people who have to get up early on weekdays for work, students who need to study during the week and elderly people. The noise from music, carousing, shouting, door slamming, etc, which would be created well into the night, would disturb many homes.

Before making your decision, please ask yourselves how you would like to have such a large venue near your homes creating such a nuisance every night when you need to get up early the following morning to go to work and/or get your children off to school after their sleep has been disturbed.

Please reject this application on the grounds of it creating a public nuisance and, because of lack of sleep and consequent inability to concentrate at school, harm to children.

You ask me to tell you what changes I would prefer to see. I would like to see the application for the addition of late night refreshment and the addition of entertainment to be limited to times which would not cause a nuisance to households in the area and harm to children, that is the finishing times to be no later than 8pm on evenings followed by workdays (ie, the evenings of every day except Saturday). Saturdays could perhaps have a slightly later time for finishing (perhaps 11pm) provided the music is kept within the venue's walls and doors are kept closed.

[REDACTED]

25 March 2019

You need to complete this box as fully as possible. If you do not the Licensing Authority may not be able to assess the relevance of your representation.

Please attach supporting documents/further pages as necessary – please number all additional pages.

Try to be as specific as possible and give examples, e.g. on 1 February I could hear loud music from the premises between 10pm and 1am. I am concerned that if the premises open until 2am this will cause a nuisance to me and other residents of the street.

Sig

Variation Application, Headingley Pavilion, Headingley Stadium, Leeds LS6 3BR

We wish to object to the above application on the grounds of public nuisance and harm to children. An extension of the licence until 2.00 am Monday to Saturday would lead to increased noise within a residential area. Most people in the area have to go to work and children have to go to school and such late opening would mean increased noise from people leaving the venue, taxis and other vehicles. We are already subjected to noise, litter and traffic disturbance and disruption because of events at the Stadium and do not wish to see this increase. For the same reason we object to the variation of the licence for Sundays. Light pollution and disturbance to people's sleep is also an issue.

Nelson, Matthew

From: [REDACTED]
Sent: 24 March 2019 17:24
To: Entertainment Licensing
Cc: Nelson, Matthew
Subject: Headingley Carnegie licence applications

I would like to make an objection to two license applications that have been made by Headingley Carnegie rugby stadium.

1.

The first concerns the South stand. The desired license is to be able to hold music and dance events with alcohol for the whole of Sunday up to 22.00.

I object strongly to this. The stadium is in a residential area in which a diverse mix of residents would wish to enjoy a peaceful Sunday without being disturbed by the sound of music. Local children and babies will be trying to sleep after 19.00, I should imagine, and it would be detrimental to their health to have this sleep disturbed. Working people and the elderly are entitled, surely, to enjoy private spaces on a Sunday which are free from invasive noise. The overall effect of such a license would be to directly reduce quality of life for all local residents.

2.

I would also like to object to the stadium application for an extension to their existing bar licence to 2.00am throughout the week. This is not a city centre. People work. Children go to school. We in this area already have to put up with disrupted sleep and litter from students returning from late night events. Now we are being asked to put up with this in our own area. For the people living right next to the stadium...where stadium doors are often left open...this is untenable. For all those in the surrounding area...also untenable, as we will be subjected to a flow of drunken shouting through our area as young people return from their night of dancing. I am not against young people enjoying themselves. BUT night clubs should be in appropriate places. Headingley Carnegie is supposed to be a sports stadium. It should be supporting the health of its local neighbours. Allowing a night club in the heart of a residential area which is just beginning to rebuild a balanced community, is surely against everything that the council has promised in its Headingley design statements and also against all visions for a future Headingley proposed by our Neighbourhood Forum.

Yours sincerely

Get [Outlook for Android](#)

Dear Matthew

This is the objection that I want to make, using [REDACTED] as a basis as her reasons are similar to my own. I am emailing licensing because I cannot find the form online. The guidance says this is acceptable. I would like this objection to be placed against these three applications

Heading Pavilion – Variation – Last date for Representations 25th March 2019

South Stand – Variation - Last date for Representations 12th April 2019

North Stand – Variation - Last date for Representations 12th April 2019

I would like to register an objection to the Stadium's request to add music to their licence and for any extension to alcohol sale times.

The Stadium was designed for sports events. This is its core business. It is in a residential area and if it wants to extend its core business in this way it should instead relocate as other stadiums in the UK have.

The stadium is in Headingley which has a history of problems relating to public nuisance. Headingley is an area with strict alcohol controls on licensed establishments because of these problems. For this reason alone we cannot risk having a large scale corporate drinking and music establishment in the area openly running late night events as it would create problems of public disorder and public nuisance as experienced before. It would draw people away from the city centre as has happened in the past. It would re-introduce the concept of Headingley as a party area where people can play music and drink until the early hours. This was a big problem a few years ago which is now under control in this area. It is now a popular area with students who want to live amongst families and enjoy somewhere quieter to study.

There is a recent history of noise nuisance from the stadium when they have operated temporary extensions (for one example see below) . This has negatively affected this community. The stadium have shown no interest in this problem which has occurred repeatedly over a number of years and have made no attempt to address it.

The new South stand music systems have already caused significant upset to people in this community as the noise appears to have a different, more intrusive quality which has sometimes been overwhelming and cannot be ignored. When complained to directly, it is my experience that the Rugby Stadium refer to their entitlement under law rather than show an interest in addressing the problem directly so it's important they are not given additional "license."

In addition

1) Harm to children

Children particularly need to be free to sleep and study. The stadium music is very intrusive and often prevents me from listening to music at home or watching TV.

Evening music will definitely affect both my ability to complete homework (i have language lessons at leeds beckett, guitar lessons and singing lessons ,wirth homework for all three!) and to sleep at a reasonable time.

2) prevention of public nuisance

In the past the Cricket school has rented out their facilities to private contractors for weekends in December. Despite repeated complaints to the noise nuisance service from local residents about music leaking from the building until 1am it has not been stopped.

At the moment we cannot trust the stadium to take responsibility for ensuring that conditions are adhered to, until match day events create no noise nuisance any extension is not acceptable

many thanks

Nelson, Matthew

From: [REDACTED]
Sent: 17 March 2019 21:34
To: Entertainment Licensing
Cc: [REDACTED]
Subject: Headingley Stadium

Dear Sirs

I am writing to raise serious and strong objections to the following application:

We are in receipt of a full variation application for the Headingley Pavilion to relocate the bars and add late night refreshment (to allow hot food and drink between 23:00hrs and 02:00hrs Monday to Saturday). The application also includes the addition of 'entertainment similar to live music, recorded music or dance' on Sundays between 12:00 and 22:30hrs. The notice period for this expires on the 25th March.

I object on the following grounds -

Prevention of crime and disorder: allowing more alcohol to be bought and consumed in Headingley until 22.30 on a SUNDAY and 02:00 on other nights will cause more people to come to the area, more rowdyism, more litter, and a general lowering of the area. The Stadium is a Cricket and Rugby stadium, which is situated in a very densely populated area of the most crowded suburb of Leeds. Adding more people and more alcohol to this mix is ridiculous. Do come along to see Headingley any night to see the levels of noise, unacceptable behaviour, litter etc.

Public safety: I am concerned that a Stadium, for sporting events, could be wanting to sell alcohol until the early hours, every night of the week.

They must have some responsibility to the people who are drinking there, as well as to the stadium neighbours

Prevention of public nuisance: as above, more alcohol causes more public nuisance, from verbal abuse, litter, vomit, urine and more. It is unusual not to be woken by people loudly walking down our street after big events already. I do not want this to get worse.

Protection of children from harm: Children need sleep. There are a very large number of children in our area, and they need to be able to sleep undisturbed (as do their parents). The drinkers will also be little more than children themselves, and some responsibility needs to be taken for their alcohol intake.

The applications appears to want to turn part of the stadium into a late night drinking and music venue - which is unacceptable so close to a very populated area. They currently don not seem to have much regard for our peace and quiet on match days and for other events, so I hold out no hope that they will suddenly become good neighbours.

I do hope you turn this application down.

Many thanks

Subject: Re: Licensing Act 2003 - Headingley Stadium

I am writing to object to PREM/01872 application for full variation for the Headingley Pavillion. The sale of alcohol and performance of live or recorded music on Sundays till 22.30 and on weekdays till 2.00, will cause an increase in noise nuisance, an increase in alcohol consumption, an increase in people on the streets - making an noise, attracting traffic especially taxis, using late take-aways and dropping litter, urinating and vomiting, shouting and screaming. All these problems already exist in Headingley due to the Otley Run, to the detriment of family life, especially for children and elderly people. We are hoping to attract families back to live in Headingley and to rebalance our community. This application will have a negative effect. The stadium is a sporting venue, a positive asset to the neighbourhood. None of the above changes are related to sports events.

Subject: Variation of premises licence at Headingley rugby/cricket ground

I am writing to object to the above application for permission to play recorded music, live music and dance on Sundays from 12.00 to 22.30.

This is a densely populated residential area, and the playing of music will cause nuisance and disturbance to local residents. The stadium is a sports venue, and a great asset to our neighbourhood. The playing of music is not part of the function of a sports stadium. Sports events are time-limited and the noise level is not generally such as to cause nuisance. Playing music at a level which can be heard outside the stadium and is not related to a sports event is not acceptable. I urge you to reject this application.

The information in this email (and any attachment) may be for the intended recipient only. If you know you are not the intended recipient, please do not use or disclose the information in any way and please delete this email (and any attachment) from your system.

-
- Minor Variation Application
- South Stand, Emerald Headingley Stadium, St Michaels Lane, Headingley, Leeds, LS6 3BR
-
- The application is made to include live music, recorded music and the performance of dance on Sundays only; 12:00 until 22:30 hours.

[REDACTED]
I would like to register an objection to the Stadium's request to add music to their license on Sundays.
Regarding

1) Harm to children

Children need to be able to study, enjoy peace and sleep on Sundays as well as weekdays. The stadium music has in the past children and prevented children from enjoying these activities.

Sunday preceeds a school day and should be be treated accordingly. This is a serious problem for the many families who live next to or even near the stadium.

Today, children of all ages have exams throughout the year; Sunday night should not be sacrificed.

2) Prevention of public nuisance.

Noise and light pollution are a major cause of mental health issues; sleep is a really important element for our well being and this addition of extra noise and activity in the the late evening is likely to cause a public nuisance. The Stand is surrounded by residential housing and will immediately have a negative on the families living in the surrounding areas.

Commenter Type: Neighbour response

Stance: Customer objects to the Licensing Application

Reasons for comment:

Comments: 3:47 PM on 15 Mar 2019 I wish to object to the stadiums application to extend their hours of operation for the sale of alcohol and live music until 2am from Monday to Saturday. As it is, when the stadium holds an event, the impact on local residents is huge. To extend these hours to 2am in the morning is unthinkable. At the moment the stadium events are bearable as we know that there is a time limit and the noise disruption will end - at least before midnight. If the hours of operation are extended to 2am then in practical terms we will also be impacted by noise made by people leaving the venue and traffic which will extend the hours of disruption further. As it is the stadium does not manage it's events very well - parking is always an issue on Cardigan Road, traffic is never managed well. To extend their operating hours would be an endorsement of their already bad neighbourhood management.
