

# Equality, Diversity, Cohesion and Integration Screening

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality, diversity, cohesion and integration.

A **screening** process can help judge relevance and provides a record of both the **process** and **decision**. Screening should be a short, sharp exercise that determines relevance for all new and revised strategies, policies, services and functions.

Completed at the earliest opportunity it will help to determine:

- the relevance of proposals and decisions to equality, diversity, cohesion and integration.
- whether or not equality, diversity, cohesion and integration is being or has already been considered, and
- whether or not it is necessary to carry out an impact assessment.

**1. Title:** The Arnold and Marjorie Ziff Tropical World Development

Is this a:

Strategy / Policy

Service / Function

Other

**If other, please specify:** proposed investment in indoor play facility

**2. Please provide a brief description of what you are screening**

It is proposed to transform an existing glasshouse at the Arnold and Marjorie Ziff Tropical World with limited education and conservation value (not part of previous phases of refurbishment), to an indoor play facility. This would be focussed around the idea of an explorer's ship (typical of those used in the 19<sup>th</sup> century such as HMS Beagle by Charles Darwin), within a jungle setting.

**3. Relevance to equality, diversity, cohesion and integration**

All the council's strategies and policies, service and functions affect service users, employees or the wider community – city wide or more local. These will also have a greater or lesser relevance to equality, diversity, cohesion and integration.

The following questions will help you to identify how relevant your proposals are.

When considering these questions think about age, carers, disability, gender reassignment, race, religion or belief, sex, sexual orientation. Also those areas that impact on or relate to equality: tackling poverty and improving health and well-being.

| Questions   | Yes | No |
|---|-----|----|
| Is there an existing or likely differential impact for the different equality characteristics?  | x   |    |
| Have there been or likely to be any public concerns about the policy or proposal?   | x   |    |
| Could the proposal affect how our services, commissioning or procurement activities are organised, provided, located and by whom?   | x   |    |
| Could the proposal affect our workforce or employment practices?  |     | x  |
| Does the proposal involve or will it have an impact on <ul style="list-style-type: none"> <li>• Eliminating unlawful discrimination, victimisation and harassment</li> <li>• Advancing equality of opportunity</li> <li>• Fostering good relations</li> </ul> | x   |    |

If you have answered **no** to the questions above please complete **sections 6 and 7**

If you have answered **yes** to any of the above and;

- Believe you have already considered the impact on equality, diversity, cohesion and integration within your proposal please go to **section 4**.
- Are not already considering the impact on equality, diversity, cohesion and integration within your proposal please go to **section 5**.

#### 4. Considering the impact on equality, diversity, cohesion and integration

If you can demonstrate you have considered how your proposals impact on equality, diversity, cohesion and integration you have carried out an impact assessment.

Please provide specific details for all three areas below (use the prompts for guidance).

- **How have you considered equality, diversity, cohesion and integration?** (think about the scope of the proposal, who is likely to be affected, equality related information, gaps in information and plans to address, consultation and engagement activities (taken place or planned) with those likely to be affected)

The proposals are relevant to earlier consultation outcomes that supported the idea of developing the attraction and improving the visitor offer. As the design and development process develops the Leeds Community Youth Ambassadors (LCYA) will support the process and development. The LCYA will work with parks staff and developers of the scheme to produce a creative, active, exciting design for children. This will ensure that children and young people are at the centre of the design process.

- **Key findings**

(**think about** any potential positive and negative impact on different equality characteristics, potential to promote strong and positive relationships between groups, potential to bring groups/communities into increased contact with each other, perception that the proposal could benefit one group at the expense of another)

The proposals in this report would further establish the Arnold and Marjorie Ziff Tropical World as a major regional attraction and encourage more visitors to spend more time visiting the attraction throughout the year. This will in turn foster further opportunities for education and conservation in support of the Zoo licence, particularly relevant given the recent declaration of a climate change emergency.

- **Actions**

(**think about** how you will promote positive impact and remove/ reduce negative impact)

Inclusive play and related access will need to be a consideration at detailed design stage and there are opportunities for broader consultation to inform this process. In addition the council's Access Officer will be consulted at relevant design changes.

**5. If you are **not** already considering the impact on equality, diversity, cohesion and integration you **will need to carry out an impact assessment.****
