Permanent and fixed period exclusions - primary

Contents

Table 1: Permanent Exclusions

Table 2: Fixed Period Exclusions

Table 3: One or more fixed period exclusion (fpex) rate

Table 4: Average number of days lost per excluded pupil

The DfE monitors levels of exclusion using key measures based on two types of exclusion – permanent and fixed period.

Permanent exclusion refers to a pupil who is excluded and who will not come back to that school

Fixed period exclusion refers to a pupil who is excluded from a school for a set period of time. A fixed period exclusion can involve a part of the school day and it does not have to be for a continuous period. A pupil may be excluded for one or more fixed periods up to a maximum of 45 school days in a single academic year. This total includes exclusions from previous schools covered by the exclusion legislation.

Pupils with one or more fixed period exclusions refer to pupil enrolments who have at least one fixed period exclusion across the full academic year. It includes those with repeated fixed period exclusions.

Exclusions information relates to all exclusions reported across the full academic year. However, exclusion rates are calculated as a proportion of all pupils on roll as at the January Census day of the relevant academic year.

Within published exclusions statistics the DfE publish both the number of exclusions and the rate of exclusion. Rates of exclusion are a more appropriate measure for comparisons over time as they take into account changes in the overall number of pupils across different academic years. As pupils can receive more than one fixed period exclusion, in some cases the rate of exclusion may be above 100%.
