<b>Ambition</b>				
No clear measurable outcomes relating to ambition of becoming a successful European city.	Vision for Leeds, Leeds Strategic Plan 2008-11 supported by Leeds Economic Development Strategy	<p>We have set up a new Leeds Initiative Going up a League Board whose remit is to drive forward outcomes which meet our aim to become a successful European city. The Board met for the first time in March 2008 chaired by Councillor Andrew Carter, Leader, Leeds City Council. It has on it representation from all three main political parties; the Chief Executive and Director of the council's City Development Directorate; representatives of the private sector; and the Vice Chancellors of both universities.</p> <p>The Board and its members will champion this agenda and in driving the city's approach to going up a league and becoming a successful European city. It will provide challenge and support to the council and other partners in achieving measurable outcomes</p>	Kathy Kudelnitzky

Planning performance is below average but has recently improved.	Leeds Strategic Plan 2008-11 supported by Local Development Framework	We have introduced performance management procedures and reduced the backlog of old applications. We have introduced 'standard' performance targets for major applications and a Planning Performance Charter for major development proposals. Performance against all BV109 indicators improved: 2007/08 compared with the previous year.	Phil Crabtree	
Sustainability is not yet embedded in planning processes.	Leeds Strategic Plan 2008-11 supported by Climate Change Strategy* and Local Development Framework	A process has been established for undertaking Sustainability Appraisal of new planning policy documents. This should ensure that the policies against which applications are judged are inherently sustainable. A Sustainable Design and Construction SPD is nearing completion. A range of information is required from developers to support their planning applications that address sustainability issues e.g. transport assessments and green travel plans	Phil Crabtree
