**Subject:** Orchard public house

Hello, on Friday there was an incident at these premises, apparantley a womanhas suffered serious injury during a fight on the property, resulting in a high police presence.

The land ladies partner in the Business [REDACTED] has posted several comments on the Orchards Facebook account showing a certain degree of lack of understanding that the car park is in fact part of their licenced property and that these people have probably been drinking on their premises, this to me shows a certain lack of concern for the local residents from his posts, could this be addressed at the hearing please

Yours sincerely
