

Equality, Diversity, Cohesion and Integration Screening

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality, diversity, cohesion and integration.

A **screening** process can help judge relevance and provides a record of both the **process** and **decision**. Screening should be a short, sharp exercise that determines relevance for all new and revised strategies, policies, services and functions.

Completed at the earliest opportunity it will help to determine:

- the relevance of proposals and decisions to equality, diversity, cohesion and integration.
- whether or not equality, diversity, cohesion and integration is being or has already been considered, and
- whether or not it is necessary to carry out an impact assessment.

2. Please provide a brief description of what you are screening

This screening form is for the Step Up to Social Work programme which provides an accelerated entry route into social work for high-achieving graduates and career changers. It targets high calibre individuals who already have experience of working with children and young people and who want to train as Social Workers. Step Up to Social Work is delivered through the development of a bespoke work-based 14-month postgraduate diploma programme, led by groups of local authorities working in regional partnerships (RPs) and contracting with Higher Education Institutions (HEIs). Students successfully completing the course will qualify with a postgraduate diploma in social work. This will enable students to apply for registration as a qualified social worker with the Health and Care Professions Council (HCPC).

Leeds has been part of the DfE funded Step Up to Social Work programme for training Social Workers for a number of years. Evaluation of previous cohorts shows an average 84% conversion rate to Social Worker posts on completion of the programme and very

positive views about the quality of the training.

Step Up to Social Work complements our reform programme and our commitment to raising the quality of social work practice, with a particular focus on the practice of child and family social workers undertaking statutory social work. We expect the delivery of cohort 7 of Step up to Social Work to embed the Knowledge and Skills Statement for approved child and family practitioners in the design and content of the training programmes, and associated Regional Partnership arrangements.

- **Key findings** (think about any potential positive and negative impact on different equality characteristics, potential to promote strong and positive relationships between groups, potential to bring groups/communities into increased contact with each other, perception that the proposal could benefit one group at the expense of another)
