Leeds Carers Partnership Strategy 2020-2025

“Putting carers at the heart of everything we do”

Aims and Passions
1. Promoting carer health and wellbeing
2. Reducing health and financial inequalities
3. Shared values and ownership
4. Partnership working

Carer ‘I-Statements’
- I have good quality information and advice which is relevant to me
- I feel that what I do as a carer is recognised, understood and valued
- I am listened to and feel part of the team planning care for the person I care for
- I am able to balance caring with my education and/or paid work
- I get to have a break and some time for myself or with other family and friends
- I feel supported when my caring role ends
- I am satisfied with the support that the person I care for receives
- I am able to keep in touch with friends and family
- I know where to get help from when I need it including when things go wrong
- I have support that means I am protected from inappropriate caring
- I have good quality information and advice which is relevant to me
- I feel that what I do as a carer is recognised, understood and valued
- I am listened to and feel part of the team planning care for the person I care for
- I am able to balance caring with my education and/or paid work
- I get to have a break and some time for myself or with other family and friends
- I feel supported when my caring role ends
- I am satisfied with the support that the person I care for receives
- I am able to keep in touch with friends and family
- I know where to get help from when I need it including when things go wrong
- I have support that means I am protected from inappropriate caring

Priorities
- Making Leeds a carer-friendly city
- Influencing change and innovation
- Right support at the right time for young carers
- Supporting carers to care
- Improving identification of carers
- Carer voice and involvement
