Inner East Community Committee - Finance Report

Purpose of report

1. This report provides the Community Committee with an update on the budget position for the Wellbeing Fund, Youth Activity Fund, Capital Budget, as well as the Community Infrastructure Levy Budget for 2020/2021.

Main issues

2. Each Community Committee has been allocated a Wellbeing budget (revenue and capital) and Youth Activities Fund which it is responsible for administering. The aim of these budgets is to support the social, economic and environmental wellbeing of the area and provide a range of activities for children and young people, by using the funding to support projects that contribute towards the delivery of local priorities.
3. A group applying to the Wellbeing Fund must fulfil various eligibility criteria, including evidencing appropriate management arrangements and financial controls are in place; have relevant policies to comply with legislation and best practice e.g. safeguarding and equal opportunities and be unable to cover the costs of the project from other funds.
4. Wellbeing funding cannot be paid retrospectively. An application form must be submitted and approved by the Community Committee before activities or items being purchased through wellbeing funding are completed or purchased.
5. The amount of wellbeing funding provided to each committee is calculated using a formula agreed by Council, taking into consideration both population and deprivation of an area.

6. Capital (CRIS) injections are provided as a result of council assets being sold. 5% of the sale price (up to a maximum of £100k) of a council asset is pooled city-wide and redistributed to the Community Committee areas on the basis of deprivation. The Community Committee will receive a new capital injection every 6 months.
7. Each Community Committee has also been allocated a Community Infrastructure Levy budget. For each CIL contribution, Leeds City Council retains up to 70-80% centrally, 5% is needed for administration and 15-25% goes to be spent locally. The money will be vested with the local Town or Parish Council if applicable, or with the local Community Committee and spend decided upon by that body. This local money is known as the 'Neighbourhood Fund' and should be spent on similar projects to the Wellbeing Fund (capital).
8. The Inner East Community Committee area has no Parish or Town Councils. This means that the money for the Inner East will be administered by the Inner East Community Committee.
9. It was agreed at Inner East Community Committee on the 25th September 2019 that CIL monies for Burmantofts & Richmond Hill, Gipton & Harehills and Killingbeck & Seacroft would be split equally three-ways.
10. The Communities Team work with members of the Community Committee to develop a plan to spend CIL funding on local infrastructure projects. This is on a case by case basis.
11. Projects eligible for funding by the Community Committee could be community events; environmental improvements; crime prevention initiatives, or opportunities for sport and healthy activities for all ages. In line with the Equality Act 2010, projects funded at public expense should provide services to citizens irrespective of their religion, gender, marital status, race, ethnic origin, age, sexual orientation or disability; the fund cannot be used to support an organisation's regular business running costs; it cannot fund projects promoting political or religious viewpoints to the exclusion of others; projects must represent good value for money and follow Leeds City Council Financial Regulations and the Council's Spending Money Wisely policy; applications should provide, where possible, three quotes for any works planned and demonstrate how the cost of the project is relative to the scale of beneficiaries; the fund cannot support projects which directly result in the business interests of any members of the organisation making a profit.
12. Any request for funding would involve discussions with appropriate ward members. Where projects do not have support from the Community Committee and are not approved, applicants are offered further discussions and feedback if this is requested.
13. In order to provide further assurance and transparency of all decisions made by the Community Committee, any projects that are not approved will be reported to a subsequent Community Committee meeting.
14. Sometimes urgent decisions may need to be made in between formal Community Committee meetings regarding the administration of wellbeing and youth activity budgets and also regarding the use of the Community Infrastructure Levy (CIL) Neighbourhood Fund which has been allocated to the Community Committee. Alongside the Committee, designated officers have delegated authority from the Director of Communities and Environment to take such decisions.

15. The Community Committee has previously approved the following ‘minimum conditions’ in order to reassure Members that all delegated decisions would be taken within an appropriate governance framework, with appropriate Member consultation and only when the following ‘minimum conditions’ have been satisfied:
- a. consultation must be undertaken with all committee/relevant ward members prior to a delegated decision being taken;
 - b. a delegated decision must have support from a majority of the Community Committee elected members represented on the committee (or in the case of funds delegated by a Community Committee to individual wards, a majority of the ward councillors), and;
 - c. details of any decisions taken under such delegated authority will be reported to the next available Community Committee meeting for members’ information.
16. Members are reminded that the necessary scrutiny of applications to satisfy our own processes, financial regulations and audit requires the deadline for receipt of completed applications to be at least five weeks prior to any Community Committee. Some applications will be approved via Delegated Decision Notice (DDN) following consultation with Members outside of the Community Committee meeting cycle.

Wellbeing Budget Position 2020/2021

17. The total revenue budget approved by Executive Board for 2020/2021 was **£216,720.00**. **Table 1** shows a carry forward figure of **£141,746.67** which includes underspends from projects completed in 2019/2020. **£41,925.62** represents wellbeing allocated to projects in 2019/2020 and not yet completed. The total revenue funding available to the Community Committee for 2020/2021 is therefore **£400,392.29**. A full breakdown of the projects approved or ring-fenced is available on request.
18. It is possible that some of the projects may not use their allocated spend. This could be for several reasons, including the project no longer going ahead, the project not taking place within the dates specified in the funding agreement, or failure to submit monitoring reports. Due to this the final revenue balance may be greater than the amount specified in Table 1.
19. The Community Committee is asked to note that there is currently a remaining balance of **£72,250.26** remaining. This figure includes any underspend from projects and ring fenced sums. A full breakdown of the projects is listed in **Table 1** and is available on request.

Monitoring Information

29. As part of their funding agreements, all projects which have had funding approved by the Community Committee are required to provide update reports on the progress of their project. These reports are so that the Community Committee can measure the impact the project has had on the community and the value for money achieved.

30. Detailed below is a project update that the Communities Team has received since the last meeting of the Community Committee on September 28th 2020:

Burmantofts Men's Wellbeing and Social Group

31. Touchstone have used their Wellbeing grant to deliver a weekly men's social and wellbeing group in Lincoln Green and Burmantofts. The purpose of the group was to help socially connect men living the area and reduce their risk of social isolation, whilst building confidence, skills and resilience through the activities delivered.

32. The group have taken part in a range of activities including; healthy cooking workshops, employability sessions, relaxation, stress reduction and mindfulness activities, arts, craft and games as well as providing low level wellbeing/mental health support. Earlier in the year prior to the Covid-19 pandemic the group took part in a bowling trip as well as tai chi classes as pictured above.

33. The group has continued to meet remotely during the Covid-19 pandemic and despite not being able to meet face to face, members felt that they had a safe space to attend each week where they felt better connected and had developed friendships with peers who they could rely on for support. Some had also fed back that attending the group had made them feel less lonely and that the group was a vital place where they could connect and support.

34. One member has said of the group *"I enjoy knowing I have something to rely on and that it's going to be a chance to speak to other people. I'm happy with all the people I've met, it's very social and the staff encourage involvement and learning from all."*
