

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality, diversity, cohesion and integration.

A **screening** process can help judge relevance and provides a record of both the **process** and **decision**. Screening should be a short, sharp exercise that determines relevance for all new and revised strategies, policies, services and functions.

Completed at the earliest opportunity it will help to determine:

- The relevance of proposals and decisions to equality, diversity, cohesion and integration.
- whether or not equality, diversity, cohesion and integration is being/has already been considered, and
- Whether or not it is necessary to carry out an impact assessment.

1. Title: Request to spend agreed £3.5 million backlog maintenance funding

Is this a:

Strategy / Policy **Service / Function** **Other**

If other, please specify
Administrative

2. Please provide a brief description of what you are screening

Impact of completing priority 1 and 2 works derived from backlog maintenance surveys carried out by NPS on operational and public buildings across the Civic estate. The Civic estate does not include housing or school properties. The estate does include sports centres, community hubs, community centres, children's centres, children's homes, library's, homes for older people, visitor attractions, adult social care units and all operational office buildings

3. Relevance to equality, diversity, cohesion and integration

All the council's strategies/policies, services/functions affect service users, employees or the wider community – city wide or more local. These will also have a greater/lesser relevance to equality, diversity, cohesion and integration.

The following questions will help you to identify how relevant your proposals are.

When considering these questions think about age, carers, disability, gender reassignment, race, religion or belief, sex, sexual orientation. Also those areas that impact on or relate to equality: tackling poverty and improving health and well-being.

Questions	Yes	No
Is there an existing or likely differential impact for the different equality characteristics?		X
Have there been or likely to be any public concerns about the policy or proposal?		X
Could the proposal affect how our services, commissioning or procurement activities are organised, provided, located and by whom?		X
Could the proposal affect our workforce or employment practices?		X
Does the proposal involve or will it have an impact on <ul style="list-style-type: none"> • Eliminating unlawful discrimination, victimisation and harassment • Advancing equality of opportunity • Fostering good relations 		X

If you have answered **no** to the questions above please complete **sections 6 and 7**

If you have answered **yes** to any of the above and;

- Believe you have already considered the impact on equality, diversity, cohesion and integration within your proposal please go to **section 4**.
- Are not already considering the impact on equality, diversity, cohesion and integration within your proposal please go to **section 5**.

4. Considering the impact on equality, diversity, cohesion and integration

If you can demonstrate you have considered how your proposals impact on equality, diversity, cohesion and integration you have carried out an impact assessment.

Please provide specific details for all three areas below (use the prompts for guidance).

- **How have you considered equality, diversity, cohesion and integration? (think about the scope of the proposal, who is likely to be affected, equality related information, gaps in information and plans to address, consultation and engagement activities (taken place or planned) with those likely to be affected)**

There are no known implications for specific groups. Consultation is ongoing in relation to the scope of works (programme content and timing) with service managers responsible for the sites. The service will directly manage customer/staff interface communications. Equality, diversity, cohesion and integration considerations are part of the ongoing dialogue in pre work discussions.

- **Key findings (think about any potential positive and negative impact on different equality characteristics, potential to promote strong and positive relationships between groups,**

potential to bring groups/communities into increased contact with each other, perception that the proposal could benefit one group at the expense of another)

Many buildings such as sports centres and community hubs, libraries etc enable individuals to access information and support and enable groups to come together. Maintaining these buildings in a good condition helps to encourage take up of service provision and promotes integration and cohesion within and across communities in Leeds.

- **Actions**

(think about how you will promote positive impact and remove/ reduce negative impact)

This can be achieved by providing safe friendly well maintained buildings and spaces within these buildings that are friendly and welcoming.

There is no known negative impact from this proposal. Investment in the operational estate will result in a reduction in repeat repairs which can result in disruption as areas and facilities within buildings are closed down to facilitate repairs activity. A positive impact of this proposal is the increased health and wellbeing of LCC staff and members of the public who use these council buildings and associated services. Improved physical conditions will increase satisfaction with council services and contribute to economic growth within the City.
