Subject: Application for a licence

Please don't grant the Caribbean cricket club licence.

The Caribbean cricket club has caused nothing but problems for the local residents for many years now, especially when they have an event on at the club. They've had music blasting out until 4 a.m. in the morning on multiple occasions, the people that attend these events end up at the back of the local residents' houses and urinate against our fences and throw empty beer bottles at the back of our gardens for us to clean up after them.

Please, please do not grant them a licence. I have trouble sleeping as it is, the last thing I need is music blasting out on a regular basis into the early hours of the morning.

Why haven't the local residents been informed by letters through the post about the cricket club wanting this application. Please think about the local residents, especially the older people that live in the area. They will not be able to cope with hearing that racket constantly.

There's a lot of antisocial behaviour already around this area, imagine what it would be like if they were blasting music out into the early hours and the residents can't sleep, it could cause a lot of problems and fights could end up breaking out between residents and the people at the cricket club over the noise. This would put extra pressure on the police who are probably going to be called out to the cricket club every five minutes. If this application is granted.

When they've blasted music out before, I could hear the music clear as day because my bedroom is facing towards the field and the cricket club.

Please think of the local residents.
