NOTES

- Numbers funded through the funding formula in reception to yr 11 (including pupils in resourced units as at October 2020 census).
- Formula funding allocations before adjustments for de-delegation and education services.
- The cap on gains cannot apply to any school classified as new & growing i.e. a school that opened in the past 7 years and has not reached its full number of year groups
- The cap on gains cannot reduce the post minimum funding guarantee (MFG) budget below the minimum funding level (MFL) per pupil.
- There is an increase in pupil-led funding for all schools. However as we have accounted for any changes to business rates in the total funding allocation for 2021/22 and some schools received one-off business rates funding adjustments in 2021/22, this may affect the overall comparison between 2021/22 and 2022/23.
- The school level figures published by the DfE will differ from the council's calculations as: a) the DfE has calculated school-level figures on a different basis to the provisional funding for the local authority and b) local factors such as changes in business rates affect the distribution of funding across schools.
- A Growth Fund will be established for 2022/23, however this is not currently shown in the 2022/23 figures as the ESFA has not yet advised how much growth funding local authorities will receive.
- The Formula Funding includes an amount for business rates - however please note the ESFA will be paying billing authorities directly for 22/23 and funding will be adjusted appropriately in your funding statement for 22/23
