Subject: Additional Information Regarding the Hearing for Armley Food Store
Date: 16 February 2022 18:01:32

Dear Charlotte, the licensing team and all interested parties,

I have been asked by the applicant to relay the following information.

1. The applicant has decided to remove the request for additional hours- He is happy with the hours already granted.

2. In regards to the additional shop (No 26) - this shop is being used for the Delicatessen and Butchery and not for the sale of Alcohol.

I can confirm that the plans submitted with this application form part of the application to identify the location of all Alcohol on Display. Our apologies if there has been a misunderstanding in reading these plans, but to make it clear we can confirm that the alcohol will only be displayed and sold from shop No30 as identified in the plans. This current arrangement will not change at any time in the future without prior approval by way of a variation application.

3. The additional Conditions offered - The additional conditions that have been offered are to remain (albeit, the duplicated / similar in type removed instead of replacing existing where similar)

Our client is extremely grateful for the input and responses he has received from the objectors and hopes, and taking all of the objections on board he is hopeful that the above offer will now help to alleviate the matter and allow the objectors to reconsider their need to object.

Kind Regards

Tony Clarke
JMC licensing
