Consultation around key risks and priorities continues throughout the year to ensure that the plan remains focussed on the areas of highest risk.

What are the resource implications?

- 6 At this stage, the plan is considered to be sufficient to enable the Head of Audit to provide appropriate assurances in support of the statutory finance officer's role, nevertheless, this will need to be monitored going forward. Internal audit resource will need to be focused on the most significant risk areas and on the robustness of financial control.

- 10 The Public Sector Internal Audit Standards (PSIAS) require the Head of Internal Audit to deliver an annual internal audit opinion and report that can be used by the Council to inform its governance statement. The standards also refer to the need for a risk-based plan to take into account the requirement to produce an annual internal audit opinion which includes input from management and the Corporate Governance and Audit Committee. Standard 2020 requires that internal audit plans are communicated to senior management and the Committee for review and approval.
- 11 The PSIAS set out the standards for internal audit and include the need for risk-based plans to be developed for internal audit and for plans to receive input from management and the 'Board'. Within Leeds City Council, the Corporate Governance and Audit Committee fulfils the key duties of the Board laid out in the PSIAS. This report sets out the proposed plan for 2022-23.
- 12 The Internal Audit Plan includes a number of reviews that provide assurances around the application of the statutory and constitutional framework.
