- 2 The performance information contained in the Appendices to this report and the issues which have been highlighted are provided for the Board's information.

- 3 This is an information report and does not involve a decision, so it is not necessary to conduct an equality impact assessment. However, some of the results provided will link to wider issues of equality and diversity, and cohesion and integration, and there may be occasions when Scrutiny Board members will want to look more closely at these issues and may request further information to inform their investigations.

#### **What consultation and engagement has taken place?**

- 4 This is an information report and as such does not need to be consulted on with the public. However, performance information is published on the council's website and is available to the public.

#### **What are the resource implications?**

- 5 There are no specific resource or procurement implications from this report, although some performance indicators relate to financial and other value for money aspects.

#### **What are the legal implications?**

- 6 Performance information is publicly available and is published on the council website. This report is an information update providing the Scrutiny Board with a summary of performance for the strategic priorities within its remit and as such is not subject to call in.

#### **What are the key risks and how are they being managed?**

- 7 There are close links between performance and the comprehensive risk management process used in the council to monitor and manage key risks.
- 8 The council's Corporate Risk Register includes five risks directly linked to one or more of the KPIs summarised in this report:
- In-year budget
  - Medium-term financial strategy
  - Health & Safety failure
  - Information Management and Governance
  - Workforce planning

#### **Does this proposal support the council's three Key Pillars?**

Inclusive Growth       Health and Wellbeing       Zero Carbon

- 9 This report supports the Council's three pillars by providing performance information for Strategy & Resources that relates to the economic growth of a healthy city with high quality services. It demonstrates what action is being taken to affect performance (where relevant) and to allow the board to challenge the same and consider whether any further focus should be given to any particular area in supporting these pillars. The council declared a climate emergency in March 2019 with the stated ambition of working to achieve net zero carbon emissions for the city by 2030. All services across the council will be involved with efforts to achieve this ambition, but none of the performance information contained in this report is directly linked to actions taking place to address the climate emergency and, therefore, will not feed into an assessment of how on track the council is in achieving the target.
