24<sup>th</sup> May 2022

**Mleczko, 329-333 Harehills Lane, Leeds, LS9 6AX**  
**Application for a premises licence under the Licensing Act 2003**  
**Licensing Authority Letter of Representation**

Thank you for submitting your application for a premises licence for the above premises.

The area in which the subject premises is in a cumulative impact area. Specifically, your application falls within the cumulative impact area of Harehills as described in the Statement of Licensing Policy at paragraphs 7.24 to 7.26 which states:

7.24 The council has assessed anti-social behaviour and crime statistics for the area known as Armley and has determined that there is an area that is suffering from the cumulative impact of off-licensed premises and as a consequence this is leading to problems which are undermining the licensing objectives. Specifically, Town Street and Branch Road are the areas affected. Maps showing the exact geographical area included in this area can be found in the cumulative impact assessment.

7.25 In this area the nature of the problems are predominantly anti-social behaviour perpetrated by people purchasing alcohol on Town Street and Branch Road and then remaining in the area to drink it. More information on the evidence can be found in the cumulative impact assessment.

7.26 It would be inconsistent with the council's duty to promote the licensing objectives to grant new and variation application for any premises licence which seeks off sales of alcohol at any time.

I refer you to the council's Cumulative Impact Assessment for Harehills (pages 56 – 64) for further information.

I refer you to 7.32 to 7.39 of the Policy which describes how applications for premises situated within a designated cumulative impact area for new premises licences or variations that are likely to add to the existing cumulative impact will normally be refused and it is for the applicant to demonstrate that their application would not add to the cumulative impact.

**Website: [www.leeds.gov.uk](http://www.leeds.gov.uk)**  
**Switchboard: 0113 222 4444**

I also refer you to 7.38 of the Statement of Licensing Policy which describes examples of factors the licensing authority will not consider as meeting the standard of rebuttal include:

- That the premises will be well managed and run as all licensed premises should meet this standard.
- That the premises will be constructed to a high standard.
- That the applicant operates similar premises elsewhere, such as in another licensing authority area, without complaint.

## Your Application

I note that your application is for a large convenience store, with sale by retails of alcohol every day from 8am to 11pm for consumption off the premises. Amongst others, you have offered a range of measures relating to the type of alcohol sold such as no multipacks of superstrength beer, lager or cider, no sale of high strength cider in 1, 2 or 3 litre bottles, identifying marking on alcohol products other than spirits or wine and no small measures of spirits. I recognise that these seek to address the issues being experienced in the Harehills area in relation to the crime, disorder and nuisance associated with street drinking

## Alcohol Licensing Data Matrix

In 2021 the Council updated the Alcohol Licensing Data Matrix. The data used in the Matrix has been updated and is now based on a larger area known as MSOA. A MSOA is a geographic area designed to improve the reporting of small area statistics in England and Wales. MSOAs are built from groups of contiguous LSOAs. The minimum population is 5000 and the mean is 7200. The Organisation Data Service publish files created on their behalf by the Office for National Statistics, which link postcodes to the Middle Layer Super Output Area. This enables the Matrix user to input a postcode, for this to be linked to a MSOA and the data for that MSOA to be ranked against all other areas in Leeds.

By entering the postcode for the premises the matrix displays the ranking of this MSOA against certain data sets. This allows responsible authorities and the licensing authority to establish the problems being experienced in the MSOA. The Matrix also provides an overall ranking against all 107 MSOA areas in Leeds.

The matrix has rated the MSOA concerned as **high**. It is ranked 18th highest out of 107 MSOAs for potential alcohol related harm.

Indicator	Category	Rank
Deprivation Score	Very high	2
Population aged 16 and under	Very high	1
Not achieving English & Maths strong pass	Very high	3
NEET (not in education or training)	Very high	7
Looked after children	High	10
Off Licence premises count	Very high	2
Licensing risk score	Very high	6
Alcohol related harm hospital stays (narrow, age std. rate)	Very high	9
Stroke emergency hospital admissions (age std. rate)	Very high	1
Ambulance callouts related to alcohol, count	High	23
Violent crime where alcohol flagged, count	Very high	9
Drunk and disorderly, count	Very high	8
Antisocial behaviour - alcohol related, count	High	12

This area ranks very high for deprivation, population aged 16 and under, children not achieving a strong pass in English and Maths, and children not in education, employment, or training and high for looked after children. This shows that this area has an unusually high number of vulnerable children.

This area ranks very high for alcohol related violent crime and drunk and disorderly crime and high for alcohol related antisocial behaviour. This shows that people are already affected by alcohol related crime and disorder.

It also ranks very high for alcohol related hospital stays, emergency hospital admission for stroke and high for alcohol related ambulance call outs. This indicates that people in this area are suffering from alcohol related health harms.

Finally, this area has a very high density of off licensed premises but also high for licensing risk score. This shows that not only are there a lot of shops selling alcohol, but the high licensing risk score shows that these premises are inspected more regularly than in other areas. This would be due to complaints and licence breaches.

These data points towards an area with both adults and children suffering from alcohol related harm, whether that be directly or indirectly. All this is confirmed by the anecdotal evidence provided by residents for the 2018 Cumulative Impact Assessment.

## **Conclusion**

Bearing in mind the severity of the problems being experienced in the area, with this area suffering from issues with people drinking on the street and causing disorder and anti-social behaviour issues, the Licensing Authority is of the opinion that your application does not contain sufficient information about how granting your licence would not add to the impact already being experienced in the area. In fact as the problems in this area are so severe, it is hard to envisage how any business selling alcohol for consumption off the premises can mitigate these concerns.

Therefore the licensing authority submits a formal representation to your application on the grounds of the prevention of crime and disorder, public safety and public nuisance and will recommend to the licensing sub-committee that this application is refused.

Should you have any questions, please contact us.

Yours faithfully

18 May 2022

Dear Mr Clarke,

**Licensing Act 2003**

**Name and Address of Premises: Mleczko, 329 - 333 Harehills Lane, Leeds, LS9 6AX**

We refer to your licensing application for the above premises. We believe that your application does not give enough information about how you intend to meet an important objective of the licence, which is to prevent public nuisance. We therefore confirm that we are submitting a formal objection to your application.

We base our objection on the following matters:

- The location of the business is directly opposite residential premises; due to concerns we have in the area for public drinking and antisocial behavior the noise amounting from this could create rise to Public Nuisance. The late hours applied for in the application could also create rise for noise created by customers, cars, and delivery drivers for customers who would want alcohol delivered to their door.
- The application premises are situated within the Harehills Cumulative Impact Assessment area; where it is the council's policy, on receipt of relevant representations, to refuse new and variation applications involving premises that are:
  - Alcohol led premises such as bars, pubs and nightclubs
  - Café bars and restaurants
  - Premises seeking late night refreshment such as takeaways and late opening restaurants
  - Premises seeking to sell alcohol for consumption off the premises after midnight, such as off licences and convenience stores.

It is the council's policy, on receipt of relevant representations, to refuse all applications in the red zone except in exceptional cases. Your application does not provide sufficient information to show that it is exceptional or should be considered as such.

We recommend that the Sub-Committee refuse the application.

Having read the matters we describe, if you feel we should consider anything else please do not hesitate to contact us.

Yours sincerely

Miss Kate Coleman

**RE: Mleczko 329-333 Harehills Lane Leeds  
APPLICATION FOR NEW PREMISES LICENCE – LICENSING ACT 2003:  
POLICE – LETTER OF REPRESENTATION – CUMULATIVE IMPACT POLICY (CIP):**

Thank you for submitting your application for the above premises.

The application relates to premises which fall within one of the areas of Leeds currently subject to a policy of cumulative impact, as detailed in the present Statement of Licensing Policy 2019-2023, issued by Leeds City Council as the licensing authority.

The area concerned in this particular case is **Harehills**.

Therefore, West Yorkshire Police make representations based on the cumulative impact assessment of the area concerned and highlighted above, where the licensing objectives and particularly the prevention of crime and disorder and prevention of public nuisance objectives are being adversely affected.

The proposed premises are located on Harehills Lane, which is a particular concern for the purposes of the cumulative impact assessment and the concentration of off-licences. It is also well within the area defined as a cumulative impact area.

Leeds City Councils Statement of Licensing Policy 2019-2023 states;

**NOT PROTECTIVELY MARKED**

## NOT PROTECTIVELY MARKED

***“The council has assessed crime statistics for the area known as Harehills and has determined that there is an area that is suffering from the cumulative impact of off-licensed premises and as a consequence this is leading to problems which are undermining the licensing objectives. Specifically the area around Harehills Road and Harehills Lane is particularly suffering from the cumulative impact of too many off licences.”***

Harehills is an area of Leeds, which is also subject to a Public Space Protection Order (PSPO), in an effort to prevent members of the public being in possession of an open container of alcohol in a public space and gives authorities powers to seize alcohol under these circumstances.

The reason behind this being Harehills is blighted by alcohol related ASB, crime and street drinking.

I believe many street drinkers attend this area of Harehills due to the high concentration of off-licences where alcohol is readily available, and the price driven down by fierce competition.

The associated ASB and crime related to street drinking alone is public urination/defecation, littering, arguments and fights breaking out between groups, loitering down side streets causing intimidation and foul language.

This application is ultimately for just another off-licence in an area already saturated with these operations, where alcohol and associated crime/nuisance is a major concern.

To quote again from the Statement of Licensing Policy 2019-2023;

***“It would be inconsistent with the council’s duty to promote the licensing objectives to grant new and variation application for any premises licence which seeks off sales and late night refreshment to operate during the peak hours described in the cumulative impact assessment for Harehills.”***

West Yorkshire Police are in agreement with Leeds City Council that to grant another premises licence for off sales would not be consistent with the licensing objectives and would contribute negatively to the cumulative impact of similar businesses in the area.

Therefore, West Yorkshire Police consider that this application would not be appropriate due to the current policy of cumulative impact for Harehills and make this representation to promote the licensing objectives.

**Subject:**Objection to PREM/04934/001

Hi Bridget,

**My objection for Harehills Lane is below. I am happy for the comment to have my name, work office and email address as through this I have a record of any follow up discussions. However I do not want my phone numbers or any other details included as through this I have no reference point**

"Mleczo 329-333 Harehills Lane – application reference PREM/04934/001. For the reasons below I am writing to object to the application containing an off-licence:

Street drinking is having a detrimental effect on the entire wellbeing of the area and reducing the range and appeal of the shopping area. As with the "Broken Windows" theory of Wilson and Kelling, the more problems an area has, the greater the asb is felt and increases in the area. Bringing ever more off-licences in is not required and will encourage public nuisance and fears for public safety.

For many years we have been increasingly blighted by the scourge of street drinking on Harehills Lane and Road. It got so bad by 2018 that Harehills Lane applied for and was granted a legally enforceable Cumulative Impact Policy (CIP) which is a way to oppose additional off-licences. To obtain a CIP, major consultation is required with the local community and this clearly showed the public wish to do all possible to reduce off-licence sales.

But the problems did not go away: UK Law specifies actions available to the police and these do not effectively deal with determined street drinking and detrimental alcohol sales. The Police were sometimes taunted by the drinkers who knew they did not have the capacity to undertake major arrests. That changed at the turn of this year when Harehills became the second area of the city to gain magistrates' permission for Closure Orders. As a result, over 100 people have been arrested, warned etc for street drinking and such major policing has led to an at least temporary improvement. Harehills still has the drink issues but for the time being at least they have largely been moved from the main shopping areas.

But alcohol misuse remains a very real concern for the local community, so allowing another off-licence would be wholly detrimental to all the efforts underway. For two years the Council has funded specialist help on Harehills Lane to assist people suffering from drink dependency. The project is ongoing and work includes giving them support and help to reduce dependency and, wherever practical, assist with jobs and housing to give them targets and fulfilment. I believe this is the only area of Leeds where such help is provided and shows the desperate problems caused by drink dependency in the Harehills area.

Certainly street drinking remains a chronic problem for addicts, local business and local residents. While efforts are made to ensure licensees follow the law and police advice by not selling to under 18s or people who are clearly drunk, this has not been entirely effective in ridding Harehills Lane of this terrible problem and so we must ensure no more off-licenses open.

About 100 metres from the premise are Little Owls Nursery, Harehills Children's Centre, the community hub and library, youth provision and the specialist school uniform shop Jo Brands. It is a central area for children and children's needs. Surely this application goes against the Licencing category of "Protecting Children from Harm"?

The local business and community has a right to expect their shopping area to be somewhere they can meet to trade and socialise without public nuisance. Harehills Lane must become a place where local people can enjoy coming. Therefore I hope that the licensing committee will continue to support the efforts of the police, businesses, local community and Leeds City Council in addressing these issues by preventing any new alcohol licenses being granted on Harehills Lane.

I have previously encountered and been a customer of the Karpaty bakeries at Dewsbury Rd, Armley and Harehills. Its refreshing bakeries brought a welcome addition to each and a sense of pride as a new offer came to the area. It is therefore very disappointing to see this off-licence application which is the very last thing needed on Harehills Lane. Additionally, the availability of the former bank, such a prominent premise on Harehills Lane, offers a tremendous opportunity for a meaningful addition the street rather than yet another off-licence.

Kind regards

Pete Mudge,

Neighbourhood Centres Co-ordinator,

Safer Stronger Communities Team

Reginald Centre,

Leeds City Council

alcohol within the excluded area, a further three month extension has been granted by Leeds Magistrates Court on 03/03/22.

The application is for a premise in a location which historically has been a centre for people to loiter to drink or cause ASB which has quite rightly caused concern not only to the local residents but also to the business community due to such behaviour deterring shoppers using Harehills Lane. Although we have seen a reduction in reports since introducing the Closure Order, the issue has not been resolved and allowing another premise to sell alcohol within the most problematic area will only escalate the matter.

As this premises falls within the Cumulative Impact Area and the Closure Order, I respectfully oppose this application as there is no requirement or demand for another off license premise in order to prevent further anti-social behaviour and crime within the area. If the application is granted this would have a detrimental impact on the community of Harehills.

Kind Regards,

Martin

**Section 4 – Representation grounds**

<p><b>The representation is relevant to one or more of the following licensing objectives:</b></p> <p><b>Please tick relevant box(es)</b></p>	Prevention of crime and disorder	X
	Prevention of public nuisance	X
	Protection of children from harm	X
	Public safety	X

Please select:

I object to the application being granted at all

I object to the application being granted in its current form\*

\*If you choose this option, remember to tell us in the next section what changes you would prefer to see.

**The grounds of the representation is based on the following:**

I would like to bring to your attention the negative impact granting the alcohol off-licence application would have on the local community. This would be a concern with regard to the potential harm to children, crime and disorder, public nuisance and public safety.

I strongly object to this license on the following grounds.

After two years of the coronavirus pandemic, levels of alcohol consumption and alcohol harms have increased across Leeds, and they have disproportionately affected areas of multiple deprivation such as Harehills. Much work has successfully been undertaken by Ward Councillors, the Police and the Council’s Safer Stronger Communities Team to make Harehills a more attractive and safer (retail) area. Their success in reducing street drinking and crime levels will be significantly undermined by yet another retail outlet selling cheap alcohol every day between the hours of 08:00 - 22:00.

Leeds City Council has produced a data matrix to estimate alcohol harm for each Middle Super Output Area (MSOA) in Leeds. Each MSOA is given an overall score which places the MSOA into a comparative city-wide risk rating. There are 107 MSOA’s in Leeds. LS9 6AX was awarded an overall harm from alcohol related risk as **18 out of 107 LSOAs**, putting it within the high risk of alcohol-related harm category. Analysis of the individual scores on the matrix contribute to creating a fuller picture of the local community and will be highlighted forthwith with reference to the licensing objectives.

In addition to statistics, I have also included a statement from a local GP whose surgery is located on the same road as the proposed premises, and who is also the Clinical Director of the Burmantofts, Harehills and Richmond Hill Primary Care Network.

- **Protection of children from harm**

This area has the **2<sup>nd</sup> highest** number of off licenses in Leeds and **risk rated as very high**. Another off license on Harehills Road, selling low-cost alcohol, will jeopardise the protection of children and young people from harm.

This area has the **highest number of children** under the age of 16 in Leeds District. The increased number of establishments selling cheap and strong alcohol and the subsequent proliferation of street drinkers and local residents suffering from alcohol addiction normalizes the situation for children and as they grow older it almost sets the benchmark of what is normal in their area. We know from much peer reviewed evidence such an environment can have a strong influence on impressionable children in low-income neighbourhoods and can create low aspiration amongst this peer group.

This area has a very high number of young people not in education or employment; it is ranked **7 out of 107**

**MSOA's.** There is also a low level of educational attainment with a **very high** rate of pupils not achieving a strong pass in English and Maths and is **ranked 3 out of 107**. Viewed alongside the high number of looked after children and young people, which is **ranked 10 out of 107 MSOAs**, we have intelligence highlighting a high number of children and young people who are more vulnerable to harm. These children and young people will have experienced trauma within the family home severe enough to warrant their removal from that family home. Their life experience will undoubtedly be skewed from the norm which often results in the young person engaging in harmful behaviours, one of which is alcohol drinking. Furthermore, this road is a busy walking route of primary aged school children and their parents.

- **Prevention of public nuisance**

Alcohol specific related admissions to hospital are high in the area – risk ranked as **second highest** in Leeds out of 107 MSOA's and ambulance callouts related to alcohol are also **high** in Leeds (23<sup>rd</sup> out of 107 MSOAs). These are avoidable pressures to the NHS and illustrate the harm caused by easy access to cheap alcohol within an area.

- **Prevention of crime and disorder**

Increasing the availability of cheap strong alcohol is strongly correlated with a higher prevalence of alcohol-related crime and disorder. This is backed up by statistics from Safer Leeds, which records the number of incidents of ASB, drunk and disorderly and violent crime statistics.

Anti-social behaviour where alcohol was flagged (excluding violent crime) was high risk ranked as **12 out of 107 MSOA's**, and violent crime very high and ranked 9 out of 107 MSOAs. Statistics relating to drunk and disorderly is also very high and ranked as being **8 out of 107 MSOA's**. These indicators both suggest a risk to public safety as well as high levels of crime and disorder in existence in the community. This will be exacerbated by the increased accessibility of (cheap) alcohol.

- **Public safety**

Street drinking and the associated negative safety and environmental impacts on local residents and businesses has been a long-standing issue in the Gipton and Harehills ward. The availability of yet another outlet selling cheap high strength alcohol will contribute to these challenges in the area. Whilst pro-active work has been undertaken by Police, the third sector (Touchstone) and the Council, this off license is predominantly within the "street drinking hotspot" and evidence shows that people will congregate where cheap alcohol is available which makes it highly likely this behaviour will increase on Harehills Lane.

Dr Nadia Anderson, GP Partner North Leeds Medical Practice and Clinical Director BHR PCN, has provided me with a powerful statement which explains why she is highly concerned about this application. She is providing evidence in relation to public safety, protection of children from harm, and prevention of crime and disorder licensing objectives:

*I am a General Practitioner and Clinical Director of a network of practices in the area known as Burmantofts, Harehills and Richmond Hill PCN. From my perspective the people that live in and around have unjustly worse health outcomes which have been impacted by the poverty that they are living in. People who live in this area not only die at a much younger age but spend more of their lives suffering with poor health.*

*Alcohol is being used to soothe the genuine pain that is felt by the stress of living through the pandemic and is now worsened by sharp rises in basic commodities such as food and utilities. If alcohol is readily available this will encourage people who have no disposable income to spend their limited finances on this at the expense of nutritious food and heating their homes and other essentials. The empty calories that are in alcohol worsen people's health been contributing to the formation of cancer*

*and damaging the liver. It also has a deleterious effect on people's mental health leading to further poor choices due to lack of motivation as well as general distress.*

*Sadly, I do see people who resort to drinking on the street and they neglect their other needs. We also know alcohol contributes to domestic violence and this is something that our local care partnership has prioritised.*

*The availability of alcohol and the subsequent overuse and visibility of intoxicated people has a damaging effect on young people who will see this behaviour as acceptable and risk following in their footsteps. It is intimidating for families and other citizens and contributes to stress, anxiety, and isolation as they avoid these areas. I note the application is close to the Compton Centre which is a centre that provides support for the community.*

*I urge you to consider the vulnerable people who are not able to advocate for themselves when considering this application and the knock-on effect on the environment and the health of the people who live in the vicinity.*

In summary extending the accessibility of alcohol in the area is highly likely to add to the burden of ensuring public safety in the local area, moreover, there is a high population of vulnerable children and young people living within the area who will bear the brunt of increased accessibility to low-cost alcohol. This is in addition to facilitating the need for ambulance call-out and hospital admissions because of alcohol consumption.

The pandemic has undoubtedly impacted on the communities in a priority neighbourhood in terms of economic decline adding increased cheap and strong alcohol to an already saturated environment to communities who are struggling with low mood, anxiety and depression is irresponsible and will be detrimental to child development, family life and public order.

I would therefore urge the licensing subcommittee to refuse this application to avoid the potential harm to children, additional crime, disorder and public nuisance, and maintain public safety.

You need to complete this box as fully as possible. If you do not the Licensing Authority may not be able to assess the relevance of your representation.

Please attach supporting documents/further pages as necessary – please number all additional pages.

Try to be as specific as possible and give examples, e.g., on 1 February I could hear loud music from the premises between 10pm and 1am. I am concerned that if the premises open until 2am this will cause a nuisance to me and other residents of the street.

Signed:

Date: 23<sup>rd</sup> May 2022
