

Equality, Diversity, Cohesion and Integration Screening

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality, diversity, cohesion and integration.

A **screening** process can help judge relevance and provides a record of both the **process** and **decision**. Screening should be a short, sharp exercise that determines relevance for all new and revised strategies, policies, services and functions.

Completed at the earliest opportunity it will help to determine:

- the relevance of proposals and decisions to equality, diversity, cohesion and integration.
- whether or not equality, diversity, cohesion and integration is being or has already been considered, and
- whether or not it is necessary to carry out an impact assessment.

1. Title: Major Refurbishment Programme for Dolphin Manor, Knowle Manor and Spring Gardens care homes.

Is this a:

Strategy / Policy x **Service / Function** **Other**

If other, please specify

2. Please provide a brief description of what you are screening

The investment, funding and delivery of major refurbishments at the three remaining directly provided residential homes to ensure they give people a better quality of life, ensure the properties are fit for purpose and ensure that they are of a similar standard offered within the independent sector.

3. Relevance to equality, diversity, cohesion and integration

All the council's strategies and policies, service and functions affect service users, employees or the wider community – city wide or more local. These will also have a greater or lesser relevance to equality, diversity, cohesion and integration.

The following questions will help you to identify how relevant your proposals are.

When considering these questions think about age, carers, disability, gender reassignment, race, religion or belief, sex, sexual orientation. Also those areas that impact on or relate to equality: tackling poverty and improving health and well-being.

Questions	Yes	No
Is there an existing or likely differential impact for the different equality characteristics?	x	
Have there been or likely to be any public concerns about the policy or proposal?		x
Could the proposal affect how our services, commissioning or procurement activities are organised, provided, located and by whom?		x
Could the proposal affect our workforce or employment practices?		x
Does the proposal involve or will it have an impact on <ul style="list-style-type: none">• Eliminating unlawful discrimination, victimisation and harassment• Advancing equality of opportunity• Fostering good relations		x

If you have answered **no** to the questions above please complete **sections 6 and 7**

If you have answered **yes** to any of the above and;

- Believe you have already considered the impact on equality, diversity, cohesion and integration within your proposal please go to **section 4**.
- Are not already considering the impact on equality, diversity, cohesion and integration within your proposal please go to **section 5**.

4. Considering the impact on equality, diversity, cohesion and integration

If you can demonstrate you have considered how your proposals impact on equality, diversity, cohesion and integration you have carried out an impact assessment.

Please provide specific details for all three areas below (use the prompts for guidance).

- **How have you considered equality, diversity, cohesion and integration?** (**think about** the scope of the proposal, who is likely to be affected, equality related information, gaps in information and plans to address, consultation and engagement activities (taken place or planned) with those likely to be affected)

There are potential implications for the residents of the care homes with protected characteristics such as age and /or disability and also some health and wellbeing considerations.

- **Key findings** (**think about** any potential positive and negative impact on different equality characteristics, potential to promote strong and positive relationships between groups, potential to bring groups/communities into increased contact with each other, perception that the proposal could benefit one group at the expense of another)

The refurbishments will support greater equality by aesthetically enhancing the living environment for the older people who live in the residential homes. Resulting in comparable quality to other local homes.

The improvements will enable the homes to further become community assets and support links with local groups and networks. They will also better support the Care Delivery Service offer to family carers.

Increased accessibility is also planned into the refurbishment and given there is much evidence that reflect the benefits outdoor and green spaces has, this can only have a positive impact on health and wellbeing.

- **Actions** (**think about** how you will promote positive impact and remove/ reduce negative impact)

The improvements in the quality of the residential homes will promote health and wellbeing as full consultation will take place with people who live in the homes and other stakeholders, to ensure plans such as décor and accessibility, are co-created and where apt., dementia friendly.

5. If you are **not** already considering the impact on equality, diversity, cohesion and integration you **will need to carry out an impact assessment.**
