**Subject:**Crispy Fish and Pizza 12 Headingley Lane LS6 2AS Proposed extension of hours

[REDACTED] [Learn why this is important](#)

We are emailing to object very strongly to this proposed extension of hours application by Crispy Fish and Pizza 12 Headingley Lane LS6 2AS for the following reasons:

1. This business uses environmentally unsustainable polystyrene containers and single use blue plastic forks. The polystyrene containers are dumped by customers and blow around everywhere creating more litter for the Council and others to clear. And often they have food in, which attracts rats and magpies. The blue plastic forks are even more environmentally unsustainable as the forks break down into smaller pieces, which are unsightly, even more difficult to clear up and probably end up in watercourses. (Try doing it with a picker for Litter Free Leeds). We are not aware that this business does anything to clear up the litter that it generates. If any extension is granted, at the very least this business should be required to use more environmentally sustainable containers and cutlery.
2. Extending the hours will encourage even more anti social behaviour and late night noise along Victoria Road and other residential streets. The current hours of opening are perfectly adequate.

[REDACTED] [Learn why this is important](#)

Hi there,

I am writing to express my concerns regarding the application from the above premises to apply for a later license.

As residents [REDACTED] we appreciate the vibrancy of the area in which we live. We live with the Otley Run 7 days a week and in the main we do so with good humour.

We walk our dog in and around the Hyde Park corner area daily and already bristle at the half eaten, sometimes regurgitated take away that litters the area. We don't know what efforts crispy fish and pizza make to clear up their patrons litter, but whatever efforts are being made, it is not enough.

Allowing opening until 5am will encourage mostly inebriated people to frequent the take away, extending the hours during which residents in the area are subject to the anti social behaviour that accompanies intoxicated people. It seems unnecessary to me and will only further increase the frustrations brought by the increased popularity of the Otley Run.

Please accept this as an objection to the application to vary the license.
