

# Equality, Diversity, Cohesion and Integration (EDCI) screening

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality, diversity, cohesion and integration.

A **screening** process can help judge relevance and provides a record of both the **process** and **decision**. Screening should be a short, sharp exercise that determines relevance for all new and revised strategies, policies, services and functions.

Completed at the earliest opportunity it will help to determine:

- the relevance of proposals and decisions to equality, diversity, cohesion and integration.
- whether or not equality, diversity, cohesion and integration is being or has already been considered, and
- whether or not it is necessary to carry out an impact assessment.

**Strategy / Policy**
 **Service / Function**
 **Other**

**If other, please specify**

**2. Please provide a brief description of what you are screening**

The Home Care transformation programme is tendering to appoint a consultancy firm to support the delivery of the new home care model. A specialist consultant is required to support the market development and technical aspects of the service specification.

**3. Relevance to equality, diversity, cohesion and integration**

All the council's strategies and policies, service and functions affect service users, employees or the wider community – city wide or more local. These will also have a greater or lesser relevance to equality, diversity, cohesion and integration.

The following questions will help you to identify how relevant your proposals are.

When considering these questions think about age, carers, disability, gender reassignment, race, religion or belief, sex, sexual orientation. Also those areas that impact on or relate to equality: tackling poverty and improving health and well-being.

<b>Questions</b>	<b>Yes</b>	<b>No</b>
Is there an existing or likely differential impact for the different equality characteristics?		X
Have there been or likely to be any public concerns about the policy or proposal?		X
Could the proposal affect how our services, commissioning or procurement activities are organised, provided, located and by whom?	X	
Could the proposal affect our workforce or employment practices?		X
Does the proposal involve or will it have an impact on <ul style="list-style-type: none"> <li>• Eliminating unlawful discrimination, victimisation and harassment</li> <li>• Advancing equality of opportunity</li> <li>• Fostering good relations</li> </ul>		X

If you have answered **no** to the questions above please complete **sections 6 and 7**

If you have answered **yes** to any of the above and;

- Believe you have already considered the impact on equality, diversity, cohesion and integration within your proposal please go to **section 4**.
- Are not already considering the impact on equality, diversity, cohesion and integration within your proposal please go to **section 5**.

#### **4. Considering the impact on equality, diversity, cohesion and integration**

If you can demonstrate you have considered how your proposals impact on equality, diversity, cohesion and integration you have carried out an impact assessment.

Please provide specific details for all three areas below (use the prompts for guidance).

- **How have you considered equality, diversity, cohesion and integration?** (think about the scope of the proposal, who is likely to be affected, equality related information, gaps in information and plans to address, consultation and engagement activities (taken place or planned) with those likely to be affected)

This screening relates to the consultancy contract which will feed into the wider programme to recommission home care to a new model in Leeds.

A full equality, diversity, cohesion and integration impact assessment is being drafted for the wider programme.

- **Key findings** (think about any potential positive and negative impact on different equality

characteristics, potential to promote strong and positive relationships between groups, potential to bring groups/communities into increased contact with each other, perception that the proposal could benefit one group at the expense of another)

The appointed consultant will have due regard to the ECDI impact assessment and ensure that emerging risks and issues from their projects feed into the working document and final plans.

Ultimately the vision seeks to create a more inclusive, outcomes focused service with better assessment processes that tailor care to an individual, taking into account their preferences and protected characteristics. The model allows for specialist provision such as matching a provider with language skills.

- **Actions**

**(think about** how you will promote positive impact and remove/ reduce negative impact)

We have a consultation plan in place and are in the process of recruiting a diverse citizen panel to support our engagement and work with us throughout the commissioning process.

One of the main projects the consultant will be taking on is provider culture change to move away from a one size fits all service to measuring outcomes and goals for the individual.

**5. If you are *not* already considering the impact on equality, diversity, cohesion and integration you *will need to carry out an impact assessment*.**
