

Equality, Diversity, Cohesion and Integration (EDCI) screening

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality, diversity, cohesion and integration.

A **screening** process can help judge relevance and provides a record of both the **process** and **decision**. Screening should be a short, sharp exercise that determines relevance for all new and revised strategies, policies, services and functions.

Completed at the earliest opportunity it will help to determine:

- the relevance of proposals and decisions to equality, diversity, cohesion and integration.
- whether or not equality, diversity, cohesion and integration is being or has already been considered, and
- whether or not it is necessary to carry out an impact assessment.

1. Title: Leeds Station Sustainable Travel Gateway Advance Works and Design and Cost Report

Is this a:

Strategy / Policy

Service / Function

Other

If other, please specify: Local impact of government policy

2. Please provide a brief description of what you are screening

Leeds Station Sustainable Travel Gateway scheme will undertake some advance enabling works ahead of the main construction works these include cladding and lighting to Neville Street, drainage works, creation of Welfare accommodation in Arches 17 and 18, strip out of the former Shebabs restaurant to enable benefits to be achieved sooner and also to reduce the programme and therefore cost of the Main works

3. Relevance to equality, diversity, cohesion and integration

All the council's strategies and policies, service and functions affect service users, employees or the wider community – city wide or more local. These will also have a greater or lesser relevance to equality, diversity, cohesion and integration.

The following questions will help you to identify how relevant your proposals are.

When considering these questions think about age, carers, disability, gender reassignment, race, religion or belief, sex, sexual orientation. Also those areas that impact on or relate to equality: tackling poverty and improving health and well-being.

Questions	Yes	No
Is there an existing or likely differential impact for the different equality characteristics?	X	
Have there been or likely to be any public concerns about the policy or proposal?	X	
Could the proposal affect how our services, commissioning or procurement activities are organised, provided, located and by whom?		X
Could the proposal affect our workforce or employment practices?		X
Does the proposal involve or will it have an impact on <ul style="list-style-type: none"> • Eliminating unlawful discrimination, victimisation and harassment • Advancing equality of opportunity • Fostering good relations 		X

If you have answered **no** to the questions above please complete **sections 6 and 7**

If you have answered **yes** to any of the above and;

- Believe you have already considered the impact on equality, diversity, cohesion and integration within your proposal please go to **section 4**.
- Are not already considering the impact on equality, diversity, cohesion and integration within your proposal please go to **section 5**.

4. Considering the impact on equality, diversity, cohesion and integration

If you can demonstrate you have considered how your proposals impact on equality, diversity, cohesion and integration you have carried out an impact assessment.

Please provide specific details for all three areas below (use the prompts for guidance).

- **How have you considered equality, diversity, cohesion and integration?** (think about the scope of the proposal, who is likely to be affected, equality related information, gaps in information and plans to address, consultation and engagement activities (taken place or planned) with those likely to be affected)

A full EDCI Assessment has been undertaken for the project together with a Diversity Impact Assessment undertaken by Network Rail. Extensive consultation with groups representing protected characteristics has been undertaken over the last 2.5 years and feedback incorporated into the scheme wherever possible. The Inclusive Design Group, AUAG and Built Environment Accessibility Panel all endorsed and supported the proposals. There were a small number of concerns raised which resulted in 2 claims

being brought against the Council under the Equality Act. These were struck out by the Court on the grounds that the claims were against the wrong party, no objections had been made to the planning decision.

- **Key findings**

(think about any potential positive and negative impact on different equality characteristics, potential to promote strong and positive relationships between groups, potential to bring groups/communities into increased contact with each other, perception that the proposal could benefit one group at the expense of another)

Concerns were raised about the feeling of safety in Neville Street due to the dark walls and low lighting together with concerns that the colour differential between ground and elevation treatments was not distinct enough

- **Actions**

(think about how you will promote positive impact and remove/ reduce negative impact)

The advance works to install cladding and lighting on Neville Street will create the space for local art to be installed this is currently being commissioned and will enable the local community to be part of the development of the artwork. The commission particularly invited expressions of interest from people from the local communities and who represented protected characteristics.

The scheme will improve the lighting and lighten the elevational treatment to create a brighter more distinct space

5. If you are **not already considering the impact on equality, diversity, cohesion and integration you **will need to carry out an impact assessment.****
