Some people who received this message don't often get email from [REDACTED] [Learn why this is important](#)

bridget and pauls email isnt working can you resend them this message please

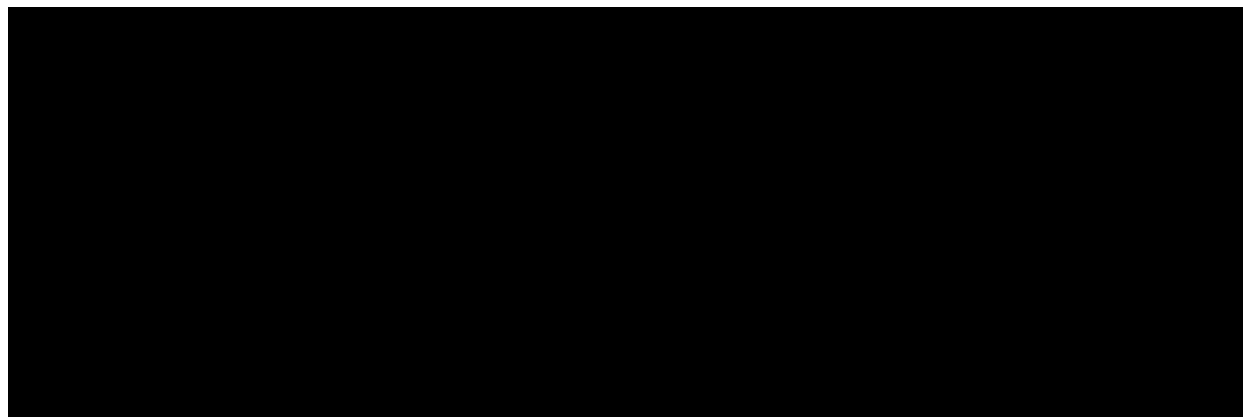

Does this mean that all the events that are sold out online can't go forward cause I read that they are still taking bookings online for every day?...

1 i object to the royal armouries application. my apartment at [REDACTED] faces the armouries over the water. music and loud sounds from people at the armouries reverberate around the dock in to the night.

people having parties go outside to smoke and they stand on the side of the 2<sup>nd</sup> floor suite function room and see who can throw the cigarette butts in the water the furthest. I often have to pick my dog up walking past the armouries due to the broken wine and tumbler glasses that are all over the floor. I can only assume being thrown off the side of the armouries at night just above where the big red shop sign is.

2 the times applied for until 3am!! is ridiculous and online it says their opening hours are until 3:30am. I'm not sure why they would want these times. they seems to close about 1am with people hanging around outside until later they not be passing the time of midnight 12am.

if people are out this time i object to the later hours, they do day functions, exhibitions and events they should start earlier if they want customers to have a wild drunken time throwing glasses being loud throwing cig ends in the water

Thank you
