RE: KANDOO LOUNGE, 85A, ROSEVILLE ROAD, LEEDS, LS8 5DT
APPLICATION FOR A NEW PREMISES LICENCE – LICENSING ACT 2003
POLICE – LETTER OF OBJECTION

West Yorkshire Police object outright to the above application for the following reasons:

The licensable activities applied for are late night refreshment and recorded music. The business is described as a restaurant, sports and entertainment lounge, and on page 10 of the application it is stated that there will be shisha smoking on the premises.

I attach an image from Kandoo Lounge & Restaurant Facebook page which appears to show a representative of the security team smoking shisha inside the venue with the comment,

“Thank you [REDACTED] for supporting us on a busy night #shisha #shishalounge #leeds”

The post appears to be from 14th January 2023.

I also attach a video from the same Facebook page from 10th January 2023 showing a male and female smoking in the venue.

NOT PROTECTIVELY MARKED

NOT PROTECTIVELY MARKED

The smoking of tobacco, including shisha tobacco, inside premises is an offence under the Health Act 2006.

Given that the licensable activities applied for are to support an illegal activity West Yorkshire Police object outright to this application.

I would therefore ask that the Licensing Authority refuse the application for a premises licence at this address as it could not possibly promote the licensing objective of the prevention of crime and disorder.

Yours faithfully

Cath Arkle
