

Equality, Diversity, Cohesion and Integration Screening

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality, diversity, cohesion and integration.

A **screening** process can help judge relevance and provides a record of both the **process** and **decision**. Screening should be a short, sharp exercise that determines relevance for all new and revised strategies, policies, services and functions.

Completed at the earliest opportunity it will help to determine:

- the relevance of proposals and decisions to equality, diversity, cohesion and integration.
- whether or not equality, diversity, cohesion and integration is being or has already been considered, and
- whether or not it is necessary to carry out an impact assessment.

2. Please provide a brief description of what you are screening

The Department of Health and Social Care published the White Paper People at the Heart of Care which recognised that, when technology is embedded seamlessly into care and support services, it can help people to live happy, fulfilled lives in their homes and communities. To support this goal, the White Paper committed to invest at least £150m in digitising the social care sector. Leeds ASC Transformation Team were involved in an early ICS DSCR Accelerator Project, the outputs generated the learning used to write a bid for funding, allowing Leeds to hit the 60% target by 2023.

The ASC Transformation Team, ASC Care Quality Team, and Integrated Digital Services (IDS) Strategy and Innovation Team worked in partnership to submit a bid for £296,000. The bid was successful, and the project has now been initiated in Leeds.

This EIA screening will show that equality, diversity, cohesion and integration will not be

negatively impacted. Although, outputs from the project should improve health and wellbeing by improving quality of care within the care home and home care sector. The project will be focusing on supporting care homes and home care providers to implement digital systems, which provide timely access to better quality information, save on staff time and improve risk identification – supporting early intervention.

When considering these questions think about age, carers, disability, gender reassignment, race, religion or belief, sex, sexual orientation. Also those areas that impact on or relate to equality: tackling poverty and improving health and well-being.

Please provide specific details for all three areas below (use the prompts for guidance).

- **How have you considered equality, diversity, cohesion and integration?**
(**think about** the scope of the proposal, who is likely to be affected, equality related information, gaps in information and plans to address, consultation and engagement activities (taken place or planned) with those likely to be affected)

- **Key findings**
(**think about** any potential positive and negative impact on different equality characteristics, potential to promote strong and positive relationships between groups, potential to bring groups/communities into increased contact with each other, perception that the proposal could benefit one group at the expense of another)

- **Actions**
(**think about** how you will promote positive impact and remove/ reduce negative impact)
