Equality, Diversity, Cohesion and
Integration Screening

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality, diversity, cohesion and integration.

A **screening** process can help judge relevance and provides a record of both the **process** and **decision**. Screening should be a short, sharp exercise that determines relevance for all new and revised strategies, policies, services and functions. Completed at the earliest opportunity it will help to determine:

- the relevance of proposals and decisions to equality, diversity, cohesion and integration.
- whether or not equality, diversity, cohesion and integration is being/has already been considered, and
- whether or not it is necessary to carry out an impact assessment.

 Other

If other, please specify:

2. Please provide a brief description of what you are screening

As part of the Rough Sleepers Accommodation Programme (RSAP), the Council Housing Growth Programme is looking to acquire 8 x 1 bedroom properties dispersed across the City to provide additional capacity in the housing stock for people who are homeless / rough sleeping. Properties shall be purchased either as part of the Council's current "buyback" project or directly from the open market. Potentially suitable areas for acquisitions will be determined by reference to the availability of relevant support services and other amenities in the nearby area.

The properties will be owned and managed within the Council's HRA. For the period of the programme priority will be for people who are recovering from rough sleeping. Support will be provided by a dedicated Housing Navigator Support team. The Housing Navigators will support people who have previously been sleeping rough into an independent, LCC Next Steps Accommodation specified tenancy, and help them to improve their personal and social skills and enable them to build their resilience to sustain their tenancy and live positively within the community.

Acquisition of these new council homes directly contributes to delivering the Leeds Best City Ambition pillars of Health & Wellbeing and Zero Carbon by:

- Providing housing of the right quality, type, tenure and affordability in the right places.
- Minimising homelessness through a greater focus on prevention.
- Addressing the challenges of housing quality and affordability, tackling fuel poverty and creating vibrant places where residents have close access to services and amenities.

The programme shall also directly contribute to the achievement of a number of key performance indicators the Council will use to measure success including:

- Prevention / Intervention / Recovery / Transparent and Joined up System—achieving a collective outcome that: People 'move in' to appropriate and suitable accommodation; People 'move-on' by accessing the right support at the right time, to aide their personal recovery and as a result fewer people return / end up on the street and also feel socially connected to their neighbourhood.
- Growth in new homes in Leeds
- Number of affordable homes delivered

3. Relevance to equality, diversity, cohesion and integration

All the council's strategies/policies, services/functions affect service users, employees or the wider community – city wide or more local. These will also have a greater/lesser relevance to equality, diversity, cohesion and integration.

The following questions will help you to identify how relevant your proposals are.

When considering these questions think about age, carers, disability, gender reassignment, race, religion or belief, sex, sexual orientation. Also those areas that impact on or relate to equality: tackling poverty and improving health and well-being.

Questions	Yes	No
Is there an existing or likely differential impact for the different equality characteristics?	Y	
Have there been or likely to be any public concerns about the policy or proposal?		N
Could the proposal affect how our services, commissioning or procurement activities are organised, provided, located and by whom?		N
Could the proposal affect our workforce or employment practices?		N
Does the proposal involve or will it have an impact on <ul style="list-style-type: none"> • Eliminating unlawful discrimination, victimisation and harassment • Advancing equality of opportunity • Fostering good relations 	Y	

If you have answered **no** to the questions above please complete **sections 6 and 7**

If you have answered **yes** to any of the above and;

- Believe you have already considered the impact on equality, diversity, cohesion and integration within your proposal please go to **section 4**.
- Are not already considering the impact on equality, diversity, cohesion and integration within your proposal please go to **section 5**.

4. Considering the impact on equality, diversity, cohesion and integration

If you can demonstrate you have considered how your proposals impact on equality, diversity, cohesion and integration you have carried out an impact assessment.

Please provide specific details for all three areas below (use the prompts for guidance).

How have you considered equality, diversity, cohesion and integration?

(think about the scope of the proposal, who is likely to be affected, equality related information, gaps in information and plans to address, consultation and engagement activities (taken place or planned) with those likely to be affected)

Leeds have an identified shortage of available one bedroom properties, with their own front door, to provide accommodation for people who have been rough sleeping but who want to have their own property. This forms part of our aspirations in Leeds to further develop a blended 'housing offer', including enhancing and developing 'housing first' models in the city. A key aspect to be able to delivery on this aspiration is to increase capacity and variety in our accommodation for this client group.

Key findings

(think about any potential positive and negative impact on different equality characteristics, potential to promote strong and positive relationships between groups, potential to bring groups/communities into increased contact with each other, perception that the proposal could benefit one group at the expense of another)

The proposal will have a positive impact on vulnerable rough sleepers. It will offer good quality supported accommodation that will meet the following objectives:

- To **prevent** vulnerable people from starting to sleep rough
- To **intervene** rapidly when vulnerable people start to sleep rough to help them off the street
- To promote a person's **recovery** once they are off the street to build positive lives that stop them returning to rough sleeping
- To have a **Transparent and Joined up System** focussing heavily on the need to join up systems to provide the most effective support to people sleeping rough.

Actions

(think about how you will promote positive impact and remove/ reduce negative impact)

The role of the Housing Navigator is to integrate clients into the community they are rehoused in.

The Housing Navigators will be skilled to work with people who display challenging behaviour which may make it difficult for them to establish relationships at any level and the navigator will work with them to overcome the barriers they face.

They will work closely with Housing Management and Housing Options to enable the client to sustain the supported accommodation.

5. If you are *not* already considering the impact on equality, diversity, cohesion and integration you *will need to carry out an impact assessment*.
