Introduction and Background

1 What are Financial Regulations?

- 1.1 The Local Government Act 1972 (Section 151) requires that an employee of the Council is recognised as the Responsible Financial Officer. In Leeds City Council that officer is the Chief Officer (Financial Services) who is referred to in this Constitution as the Chief Finance Officer.
- 1.2 The Accounts and Audit Regulations place a duty on the Responsible Financial Officer to determine the:
 - Appropriate financial records, including the form of accounts and supporting financial records; and
 - Systems of financial control.
- 1.3 The systems of financial control must include measures:
 - a) to ensure that the financial transactions of the Council are recorded as soon as, and as accurately as, reasonably practicable;
 - b) to enable the prevention and detection of inaccuracies and fraud; and
 - c) to ensure that risk is appropriately managed
- 1.4 The Chief Finance Officer has developed the following Financial Regulations as part of the system of financial control. These regulations provide a framework for managing the Council's financial affairs.
- 1.5 Each Financial Regulation is supported by more detailed guidance and procedures which set out how the regulations will be implemented.
- 1.6 The Chief Finance Officer has responsibility for the preparation, review and amendment of these Financial Regulations. They should be read in conjunction with the other governance rules and procedures contained within the Council's Constitution. In particular, any required decision must comply with the delegated decision rules as outlined in Article 13.
- 1.7 The Chief Finance Officer has responsibility for the administration of the Council's financial affairs. Any issues of uncertainty in the interpretation of these regulations should in the first instance be referred to the named contact for that regulation.

2 Who do Financial Regulations apply to?

- 2.1 Financial Regulations apply to everyone involved in financial transactions on behalf of the Council. Not every rule will be relevant to all colleagues.
- 2.2 Financial Regulations also apply to Council employees, when they are acting in an official capacity as Council staff, dealing with non-Council monies.
- 2.3 Schools have separate Financial Regulations.
- 2.4 Failure to comply with Financial Regulations could result in disciplinary action.

3 Why are they important?

- 3.1 To conduct our business effectively, we need to ensure that sound financial management arrangements are in place and that they are complied with in practice. Part of this process is the establishment of Financial Regulations which set out the financial responsibilities of the Council. These procedures have been devised as a

Financial Regulations

control to help the Council manage its financial affairs properly in compliance with all necessary requirements.

- 3.2 In order to continually meet the Council's "Spending Money Wisely" value, it is vital that we maintain good, sound financial management which helps to ensure that the Council is doing the right things, in the right way, for the right people, in a timely, inclusive, open, honest and accountable manner.
- 3.3 Adherence to these Financial Regulations will help us to control spending, ensure due probity of transactions and allow decisions to be informed by accurate accounting information. They also protect colleagues, in that if they are complying with the regulations, they cannot be subject to criticism
- 3.4 Good financial management requires secure and reliable records and systems to process transactions and information and substantiate the effective use of public money.
- 3.5 Financial Regulations should not be seen in isolation, but rather as part of the overall regulatory framework of the Council as set out in the Constitution. They will underpin and complement directorate procedures.

4 Key Principles

- 4.1 Colleagues should have regard to the following principles:-
 - Budgets must not be overspent
 - The Council's value of Spending Money Wisely should be applied to all transactions that they are involved in.
 - Only goods, works and services legitimately required by the Council should be purchased.
 - All income due must be collected, held securely and banked promptly and intact.
 - Assets should be managed in an efficient and effective manner
 - A principal of common sense should underpin all transactions performed on behalf of the Council.

5 Who is responsible for ensuring that they are applied?

- 5.1 The regulations often refer to Directors as being responsible, and whilst Directors are ultimately responsible for ensuring that Financial Regulations are applied and observed by their staff and for reporting to the Chief Finance Officer any known or suspected breaches of the regulations, it is important that all colleagues involved in financial transactions are aware of their personal responsibility.
- 5.2 The Chief Finance Officer is responsible for issuing advice and guidance to underpin the Financial Regulations.
- 5.3 The Chief Finance Officer is responsible for maintaining a continuous review of the Financial Regulations.

6 Waivers of Financial Regulations

- 6.1 There are expected to be very few instances when it would be appropriate not to comply with Financial Regulations. Waivers of Financial Regulations can only be approved by the Chief Finance Officer, and will only be agreed where it can be shown that a waiver would not result in unnecessary financial risk or loss.

Financial Regulations

6.2 To request a waiver of Financial Regulations, colleagues should contact ResRFO@leeds.gov.uk, explaining the circumstances and the reason that a waiver is being requested.

7 General

7.1 For each Financial Regulation an owner will be nominated who will have overall responsibility for ensuring that it is

- Modern and proportionate
- Communicated
- Regularly reviewed
- Complied with

Where appropriate, the owner of the Financial Regulation will provide details of training and development available and how this can be accessed.

7.2 If you would like to propose amendments to a particular Financial Regulation, you should contact the owner. This includes where you feel that the controls are not proportionate to the risk, or where you feel that the Regulation has not been updated to match changes in technology, systems or procedures .

1. Purchase and Payment for Goods and Services	
Objectives	Goods, works and services legitimately required by the Council are appropriately purchased and paid for, ensuring that the Council's Spending Money Wisely value is met.

23. Treasury Management	
Objectives	To ensure that all investment and borrowing is valid, accurate, efficient, properly accounted for and in accordance with statutory and corporate requirements.
Key Risks	Inefficient borrowing may have an adverse impact on the Council's Financial Resources. Failure to recover investment monies from counterparties.
Key Rules	The Chief Finance Officer will ensure that Treasury Management activities are carried out in accordance with the approved Treasury Management policy. The Chief Finance Officer is responsible for treasury management and no other employees, unless named in the officer scheme of delegation, must borrow or invest Council monies. The primary objective of treasury management is to manage and reduce the cost of debt within acceptable levels of risk. Secondary objectives are also taken into account at different times depending upon prevailing market conditions.
