

# Equality, Diversity, Cohesion and Integration Screening

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality, diversity, cohesion and integration.

A **screening** process can help judge relevance and provides a record of both the **process** and **decision**. Screening should be a short, sharp exercise that determines relevance for all new and revised strategies, policies, services and functions.

Completed at the earliest opportunity it will help to determine:

- the relevance of proposals and decisions to equality, diversity, cohesion and integration.
- whether or not equality, diversity, cohesion and integration is being or has already been considered, and
- whether or not it is necessary to carry out an impact assessment.

### 1. Title: Procurement of Community Health & Wellbeing Service Pilot

Is this a:

- Strategy / Policy**      x      **Service / Function**       **Other**

**If other, please specify**

### 2. Please provide a brief description of what you are screening

Leeds City Council and Leeds Community Healthcare NHS Trust are co-commissioning a pilot Community Health and Wellbeing Service in the west of Leeds to replace traditional home care services.

### 3. Relevance to equality, diversity, cohesion and integration

All the council's strategies and policies, service and functions affect service users, employees or the wider community – city wide or more local. These will also have a greater or lesser relevance to equality, diversity, cohesion and integration.

The following questions will help you to identify how relevant your proposals are.

When considering these questions think about age, carers, disability, gender

reassignment, race, religion or belief, sex, sexual orientation. Also those areas that impact on or relate to equality: tackling poverty and improving health and well-being.

Questions	Yes	No
Is there an existing or likely differential impact for the different equality characteristics?	x	
Have there been or likely to be any public concerns about the policy or proposal?		x
Could the proposal affect how our services, commissioning or procurement activities are organised, provided, located and by whom?	x	
Could the proposal affect our workforce or employment practices?		x
Does the proposal involve or will it have an impact on <ul style="list-style-type: none"> <li>• Eliminating unlawful discrimination, victimisation and harassment</li> <li>• Advancing equality of opportunity</li> <li>• Fostering good relations</li> </ul>		x

If you have answered **no** to the questions above please complete **sections 6 and 7**

If you have answered **yes** to any of the above and;

- Believe you have already considered the impact on equality, diversity, cohesion and integration within your proposal please go to **section 4**.
- Are not already considering the impact on equality, diversity, cohesion and integration within your proposal please go to **section 5**.

#### 4. Considering the impact on equality, diversity, cohesion and integration

If you can demonstrate you have considered how your proposals impact on equality, diversity, cohesion and integration you have carried out an impact assessment.

Please provide specific details for all three areas below (use the prompts for guidance).

- **How have you considered equality, diversity, cohesion and integration?** (think about the scope of the proposal, who is likely to be affected, equality related information, gaps in information and plans to address, consultation and engagement activities (taken place or planned) with those likely to be affected)

The new service will require home care providers to design their services to be more personal to the individual, empowering and outcome focused. This will ensure that the person can ensure that their identity, values, faith and culture is recognised in the services and support provided by the new contractors.

- **Key findings** (think about any potential positive and negative impact on different equality characteristics, potential to promote strong and positive relationships between groups, potential to bring groups/communities into increased contact with each other, perception

that the proposal could benefit one group at the expense of another)

We are commissioning a smaller number of providers covering the area. We are encouraging hyper-local recruitment to ensure that their workforce is diverse and reflects the local population. Considerations such as language, faith and gender will aim to be matched when assigning a care team. All staff will undergo training in cultural humility and providers must follow the Skills for Care guidance on Culturally Appropriate Care

- **Actions**

**(think about** how you will promote positive impact and remove/ reduce negative impact)

We are providing bidders with a detailed ward analysis on the demographics of the area to ensure that they are set up to meet the needs of that specific population.

Cultural humility is a mandatory training for all staff, as is dementia awareness.

Personalisation is a key part of the new service, and providers will work with an individual to get to know them well and identify their preferences and characteristics in order to direct their support.

**5. If you are not already considering the impact on equality, diversity, cohesion and integration you will need to carry out an impact assessment.**

Date to scope and plan your impact assessment:	
Date to complete your impact assessment	30.06.23
Lead person for your impact assessment (Include name and job title)	Kate Sibson

**6. Governance, ownership and approval**

Please state here who has approved the actions and outcomes of the screening

Name	Job title	Date
Cath Roff	Programme Director	24.08.23
