Communities Against Post Office Closures

RE-OPEN OUR POST OFFICE BRANCHES

The Government is closing 2,500 Post Office branches nationally. 22 of these are in Leeds. Post Office branches provide vital services to some of the most vulnerable people in our city. By closing these branches, the Government is forcing people to travel further and queue for longer to access their nearest Post Office branch.

We, the undersigned, want Leeds City Council to re-open and run closed Post Office branches in Leeds
