

## Equality, Diversity, Cohesion and Integration (EDCI) impact assessment

As a public authority we need to ensure that all our strategies, policies, service and functions, both current and proposed have given proper consideration to equality, diversity, cohesion and integration. In all appropriate instances we will need to carry out an equality, diversity, cohesion and integration impact assessment.

This form:

- can be used to prompt discussion when carrying out your impact assessment
- should be completed either during the assessment process or following completion of the assessment
- should include a brief explanation where a section is not applicable

<p>The Concrete Repair Scheme has been scoped to meet the aspirations set out in the Best Council Plan but in particular, the objectives of:</p> <ul style="list-style-type: none"> <li>• Supporting communities and tackling poverty;</li> <li>• Promoting sustainable and inclusive economic growth;</li> <li>• Supporting the outcome of everyone living in good quality, safe, affordable homes.</li> </ul>	

The planned work is also aligned to meet the Best Council Plan ambitions of:

- Improving energy performance in homes and maintaining housing quality and standards.

This is not a strategy or policy decision, but will provide the required decision to procure the design and delivery of the works, including site preparation, removal of existing electric space storage and hot water systems and the installation of GSHP system for the four council housing high rise blocks.

**5. Fact finding – what do we already know**

Make a note here of all information you will be using to carry out this assessment. This could include: previous consultation, involvement, research, results from perception surveys, equality monitoring and customer/ staff feedback.

(priority should be given to equality, diversity, cohesion and integration related information)

See block data below.

**Are there any gaps in equality and diversity information**

**Please provide detail:**

No gaps have been identified.

**6. Wider involvement – have you involved groups of people who are most likely to be affected or interested**

Yes  No

**Please provide detail:**

Residents from the blocks are to receive a letter notifying them of the planned works. The contact details of the Technical Officer allocated to the scheme will be provided to residents so they can make contact to discuss any queries or concerns.

Cross-council engagement has taken place to gather insight, perspective and feedback on the planned works with Ward Members to be briefed in September 2024, alongside further consultation and engagement planned by November 2024. Senior Management will be briefed through the project governance and approvals processes, with further consultations planned throughout the project’s delivery.

Housing Management have also been closely engaged and the Executive Member for Environment and Housing are all supportive of the planned works and the intended benefits.

**Action required:**

A communication plan has been developed to ensure regular and effective internal and external communications with all project stakeholders.

Risk and issue logs are being maintained and reviewed regularly to monitor the impact of project related risks, such as COVID-19; mitigation is also agreed at project team meetings.

**8. Positive and negative impact**

Think about what you are assessing (scope), the fact-finding information, the potential positive and negative impact on equality characteristics, stakeholders and the effect of the barriers

<b>8a. Positive impact:</b>
<p>The works will seek to provide greater housing standards and quality to the affected blocks, affecting residents and the leaseholders across all equality characteristics. In addition, other specific positive project impacts are detailed below:</p> <ul style="list-style-type: none"> <li>• Making the residents properties watertight.</li> </ul>
<b>Action required:</b>
<ul style="list-style-type: none"> <li>• A communications plan is to be developed on the recommended approach for site works.</li> <li>• Ensure access and egress is maintained.</li> <li>• Contractor to liaise with residents and respond to their needs and requirements.</li> <li>• Residents to receive training on the new system.</li> <li>• Sequencing of works to be planned to lower risk of disruption to residents</li> </ul>

<b>8b. Negative impact:</b>
<ul style="list-style-type: none"> <li>• Residents of of the affected blocks may become unsettled by having contractors carrying out works in their homes.</li> <li>• The local main roads and site entrances will experience greater traffic and greater amounts of parked construction vehicles; causing difficulty with parking spaces.</li> <li>• Public rights of way near to the sites may have to be temporarily deviated to a safer route.</li> <li>• Installation works on site may cause unacceptable levels of noise pollution, dust and debris, a temporary reduction of green space could result in residents' complaints.</li> </ul>
<b>Action required:</b>
<p>A range of considerations will be taken into account by the construction contractor when carrying out these planned works, so that these works are taken forward appropriately and safely. These include;</p> <ul style="list-style-type: none"> <li>• Carrying out due diligence prior to commencement of any planned works to minimise resident disruption and maintain safety standards.</li> <li>• Establishing and maintaining a communications strategy which meets the needs of the council and the residents.</li> <li>• Operating with openness and transparency in their methods for maintaining safe standards of work.</li> </ul> <p>In addition, Leeds City Council will:</p> <ul style="list-style-type: none"> <li>• Work with partners including West Yorkshire Police and West Yorkshire Fire Service to ensure that community safety and security is maintained.</li> <li>• Engagement with the Highways &amp; Transportation team, to oversee the establishment of onsite traffic flow management systems which allow sustained access to the site to all vehicles and permit sufficient parking.</li> <li>• Explore whether public rights of way need to be temporarily diverted. If deemed necessary, the appropriate application/regulation order will be arranged.</li> </ul>

- Ensure a construction phase plan and health and safety plan are implemented, to ensure that safety standards are maintained for residents.
- Offer increased support to the residents affected by the works.
