White Paper Amendment	A1 TO WP1	12/11/24	12/11/24

Submitted by:	Councillor Mark Dobson
Relevant Board/Regulatory Panel:	Executive Board
Executive Member/Chair:	Leader of Council
Relevant Director	Director of Strategy and Resources

After the penultimate paragraph insert the following:

Further, this Council recognises the vital role GP services and primary care plays in reducing pressure on NHS A&E in Leeds and in the improvement of health outcomes, and Council is therefore alarmed that the Labour Government has progressed a budget that will result in a cut in funding for GP services as a result of the unfunded NI rise.

The Amended White Paper would then read:

This Council notes that the Labour Government inherited the fastest growing economy in the G7, with mortgage interest rates falling and inflation back to the Bank of England target after the impact of the COVID pandemic and the energy price crisis because of the war in Ukraine.

The independent Office for Budget Responsibility (OBR) forecasts that growth will now be lower, inflation will rise and mortgage interest rates will increase as a result of the Chancellor's budget on 30 October.

The OBR also forecasts that the policies in the budget directly:

- increase tax take to an historic high at 38 per cent of GDP by 2029-30;
- lower medium-term GDP growth to 1.5 per cent;
- push up CPI inflation, projected to rise to 2.6 per cent by 2025;
- increase borrowing by £19.6 bn this year and by £32.3 bn over the next five years;
- reduce real household disposable income by 2029;
- raise the bank rate and five-year gilt yield higher than forecast; and
- cut wages by £7.5 bn as a result of a hike in employers' national insurance.

This Council rejects the Chancellor's tax on jobs, which will hit businesses in Leeds. According to the OBR: *"policy changes leave nominal and real earnings growth lower over the remainder of the forecast as employers pass on the national insurance contribution rise"*. The OBR further notes: *"in 2025/26 firms will pass on 60 per cent of the higher costs to workers and consumers, via lower wages and higher prices"*.

Further, this Council recognises the vital role GP services and primary care plays in reducing pressure on NHS A&E in Leeds and in the improvement of health outcomes, and Council is

therefore alarmed that the Labour Government has progressed a budget that will result in a cut in funding for GP practices, pharmacies and hospices as a result of the unfunded NI rise.

Council believes this budget is a tax on working people.
