Central	Rachel S	Networking and priority setting		X	LCP partners are building relationships and learning about service provision and assets in the LCP
Cross Gates	Abs	Annual Health & Wellbeing Event	X		The Cross Gates Local Care Partnership is hosting its annual Health and Well-being Event on 29th October 2024 , from 11 am to 3 pm at Cross Gates Shopping Complex . The event will offer flu vaccinations, energy-saving tips, and cost-of-living advice, aligning with the Leeds Healthy Plan. By partnering with local networks, the LCP provides residents with essential support for healthier living.
	Abs	Dementia Support		X	The Cross Gates LCP prioritised dementia support for individuals and families. During Dementia Week, they held a successful information event. Regular informal sessions offer ongoing guidance, with health professionals from the Primary Care Network attending. Feedback will be shared at LCP meetings to improve dementia care and address challenges. The next dementia feedback session is on the 5th of November 2024 .
	Rachel A	End of Life and Respiratory Disease	X		As part of the Healthy Leeds Plan - LCP working towards people at the end of life / living with severe frailty (their family and their carers) having an improved quality of life, feeling more confident, less anxious and being better supported to manage their condition in their own home thanks to a new, more patient centred pathway for people with respiratory disease.
HATCH	Ruth & Rachel A	"Food is Everyone's Business" Training Development	X		Partners have fed back that they do not feel confident to repeat key food messages in a professional context. To empower everyone within HATCH to communicate key food messages in their roles, we are designing a training offer for everyone, plus a "Train the Trainer" version of the content. 10/12/24: Testing training activities as an LCP workshop.
	Ruth	Domestic Violence and Abuse	X		Partners are covering two awareness campaigns aimed at Professionals and members of the community in Q3: "Men experiencing Domestic Violence and Abuse" as decided by the group and "It Starts with Men" led by the 16 days of action and White Ribbon campaigns. 28/11/24: Host a lunch and learn session about LDVS Men's Service and appropriate Safeguarding response for professionals.
	Rachel A	Children's Respiratory - emerging		X	As part of the Healthy Leeds Plan - The data analysis identified that a significant number of children and young people and their families were impacted by respiratory disease, understanding data before moving to diagnostic phase. Focus is for BHR, exploring value of moving to a full HATCH LCP approach
	Rachel A	Frailty and Falls prevention - emerging		X	As part of the Healthy Leeds Plan - data demonstrates that injuries and fractures remain a challenge - understanding data before moving to diagnostic phase. Focus is for BHR, exploring value of moving to a full HATCH LCP approach
	Rachel A	Testing community based approaches to NHS Health check delivery	X		To test if community-based approaches to NHS Health Check delivery engage and yield increased uptake in targeted population groups (health inclusion groups) in comparison to mainstream service delivery. 15/10/24 : Workshop around NHS Health checks and what is important to consider as a LCP

Inner South	Kim	End of Life and Respiratory Disease		X	As part of the Healthy Leeds Plan - LCP working towards people at the end of life / living with severe frailty (their family and their carers) having an improved quality of life, feeling more confident, less anxious and being better supported to manage their condition in their own home thanks to a new, more patient centred pathway for people with respiratory disease.
LS25/26	Abs	Dementia Support		X	The LS25/26 Local Care Partnership (LCP) is enhancing dementia care by collaborating with primary care networks, care homes, and community hubs. Focused on improving care quality and well-being for elderly residents, the LCP works with local organizations and the Leeds Older People Forum to create a more dementia-friendly community, where individuals feel understood and supported.
