

**CITY OF LEEDS TREE PRESERVATION ORDER (NO.46) 2024  
TPO 2024 46 (LAND AT CLARENCE ROAD HORSFORTH LEEDS LS18 4LB)**

Date: 27 November 2024

Report of: Tree Officer for City Development, reviewed by Principal Tree Officer

Report to: Chief Planning Officer

Will the decision be open for call in?  Yes  No

Does the report contain confidential or exempt information?  Yes  No

### **Brief summary**

- A Conservation Area notification under s.211 of the Town and Country Planning Act 1990 (Ref: 24/02661/TR) was received by the Council on 29 January 2024.
- LCC Officer visited site 31 May 2024. A trees proposed for removal in the s.211 notice was found to be in good condition with amenity value.
- It was deemed expedient for the Council to serve a Tree Preservation Order ('TPO') at the sites, which was served 20 June 2024.
- Under the Town and Country Planning (Tree Preservation) (England) Regulations 2012 the re-served Order will expire if it has not been determined within 6 months of the date of making.
- An objection to the Order were submitted by JCA Limited on behalf of the resident on 23 July 2024. The objection was based on the nuisance caused by the tree, owner's liability, the structural integrity of the boundary wall, the TEMPO score and the categorisation on a historic BS5837:2012 survey.
- The Council responded to the objection by email. No further comment has been made.
- The Chief Planning Officer is requested to determine whether or not the Order should be confirmed, or alternatively confirmed subject to modification, in light of the objections.

## Recommendations

- a) Having carefully considered the issue raised by the tree owner, on balance it is considered that the Tree Preservation Order is warranted on the grounds of amenity and expediency.
- b) That the Order be confirmed, as originally served.

## What is this report about?

- 1 To set out the background to the making of the provisional Tree Preservation Order and to note the fact objections to the Order has been submitted to the Council.
- 2 To seek a determination from the Chief Planning Officer that the Order be confirmed.

## What impact will this proposal have?

- 3 It will assist in protecting the distinctive green character of the city, amenity in the vicinity and assist in combating climate change by protecting the trees from unauthorised tree works or felling.

## How does this proposal impact the three pillars of the Best City Ambition?

Health and Wellbeing

Inclusive Growth

Zero Carbon

- 4 Trees play a valuable role in helping to meet the City Council's wider ambitions by improving the liveability of places, especially in urban areas, including the link between greenspaces and trees as part of the wider determinants of health and well-being. They also promote the City as a place to invest in and live by creating attractive natural urban environments. In light of the Climate Emergency recently declared by the Council, it is important to recognise the value of existing trees, in terms of carbon storage and their year-on-year carbon sequestration (in addition to public amenity and bio-diversity value). The retention of existing trees wherever possible, is a positive factor in combatting climate change (as well as contributing to the improvement of Biodiversity in Leeds). By way of comparison, it will take at least 30 years for newly planted trees planting to make a similar contribution.

## What consultation and engagement has taken place?

Wards affected: Horsforth

Have ward members been consulted?

Yes

No

- 5 Tree Preservation Orders are served on landowners on a provisional basis any other party holding an interest in the land other parties and adjoining landowners where any trees overhang their boundary.
- 6 A minimum statutory objection period of 28 days applies in respect of any Order made

## What are the resource implications?

- 7 There are no resource implications

## **What are the key risks and how are they being managed?**

- 8 The TPO does not prevent this responsible management and maintenance from occurring and the tree owner would be recommended to engage a qualified arboriculture expert to advise on how to maintain their tree.

## **What are the legal implications?**

- 9 The Chief Planning Officer is authorised to take the decision whether to determine Tree Preservation Orders under Part 3 Section 2A of the Constitution (Council non-executive functions).
- 10 It is necessary to balance the rights of the landowners against the public interest in the protection of trees provided for by the statutory provisions. Local Planning Authorities have the powers to make Tree Preservation Orders if it appears to be expedient in the interests of amenity to make provision for the preservation of trees or woodlands in their area.
- 11 The amenity of the tree(s) is considered on balance to justify the making confirmation of a Tree Preservation Order and to outweigh the rights of the property owner(s) to manage trees without local authority control.
- 12 The appendix containing the objection is exempt from publication under Access to Information Rule 10.4(2).

## **Options, timescales and measuring success**

### **What other options were considered?**

- 13 None

### **How will success be measured?**

- 14 The trees identified for retention within the Order, make a significant contribution to the "green" character of the street and to the local quality of the surroundings.

### **What is the timetable and who will be responsible for implementation?**

- 15 The Tree Preservation Order will be confirmed, as soon as possible, and by 20 December 2024, at the latest, should the Chief Planning Officer determine that the Order should be confirmed on this basis.

## **Appendices**

- Objection of JCA Limited on behalf of resident (**Exempt under Access to Information Rule 10.4(2)**)
- Response of the Tree Officer to the objections
- A copy of the Order
- Equality, Diversity, Cohesion and Integration (EDCI) screening
