### 3.0 GDPR – Information Sharing

The introduction of the GDPR 2018 regulations reviewed the area of information sharing and therefore restricted the detail of what can be provided. As a result, the content of this report may not have the detail of specific incidents previously reported but provides a summary of the types of incidents within the area.

### 4.0 Incidents captured by CCTV operators: see table

CCTV also contributes towards Police enquiries as requests are made for footage which may not have been observed “real time”. These incidents are not included in this report but can contribute towards arrests being made in the Inner North West Area.

### 5.0 Requests for new Cameras

The Surveillance Camera Commissioner is appointed by the Home Secretary to ensure that surveillance camera systems in public places keep people safe and protect and support them.

Following changes to Data Protection legislation the council needs to ensure that all its CCTV systems are managed in line with the Commissioner’s recommendations to ensure there are no data breaches (this includes CCTV systems in all Leeds City Council assets including libraries, sports centres, council vehicles fitted with CCTV, etc.).

A dedicated CCTV compliance team has been established within Leeds City Council.

The compliance team also work closely with Information Governance to assist in ensuring all system owners are compliant with their codes of practice, policies, and procedures.
