

**Leeds Learning Disability Strategy
Overview Action Plan 2009-2012**

The ten objectives in this strategy have been identified as priorities for people with learning disabilities in Leeds following extensive consultation (see appendix 4) which preceded the publication of Valuing People Now: a new three year strategy for people with learning disabilities (Dept. of Health 19 January 2009)

These ten objectives are incorporated into Valuing People Now under the headings of:

- Including everyone
- Personalisation – starting with the individual and their family
- Having a life
- People as Citizens

The action plan will be adapted and updated as local, regional and national guidance is published. Detailed action plans will be developed to support the delivery of each of the key actions
