

Area Committee Well-being Fund – Project Proposal
Outer West Area Committee

Project Name: Litters Bins for Outer West

Lead Organisation: West North West Area Management

Project Delivery - How will the project be delivered? (list any partners involved in the project):

At a previous Area Committee it was asked that approvals could be sought to fund three additional litter bins per ward, each to be located on the confirmation of the local ward Councillors in places where the need is greatest. The bins will be purchased through LCC procurement routes and will be 'heritage' style to match the bin that was approved at the previous Area Committee. They will be included as part of the LCC Street scene collections.

Project Summary (include a brief description of the main activities, why the project is needed and links to key priorities):

Each bin will provide an additional resource to the communities they are located in. Pudsey ward had one bin approved so the allocation of bins for this application is as follows:

Pudsey – 2 bins
 Calverley & Farsley – 3 bins
 Farnley & Wortley – 3 bins

If the monies for these are approved discussions will then take place with Ward members to confirm the specific locations of each bin.

Outcomes (summarise the main outcome/output/benefit the project will achieve):

Project aims to achieve the following objectives:

- Reduce littering
- Improve the aesthetics of the locality

Identify which geographic areas will benefit:

Specific locations in each of the three wards to be confirmed if approved.

Project Cost . Please indicate;

How much the project will cost. (please list all partners and their contributions)

£350 per bin
8 bins x £350 = £2,800

How much Well Being Funding is sought and breakdown between capital and revenue)

The total amount of funding requested (£2,800) would be capital

Who will be in receipt of the financial order. (name of the organisation and contact details)
