

**Area Committee Well-being Fund – Project Summary**  
**Inner West Area Committee**

**Project Name:** Inner West Sports Provision

**Lead Organisation:** Leeds City Council Sports Development

**Project Delivery - How will the project be delivered? (list any partners involved in the project):**

It is our intention to provide a range of sporting and active recreation opportunities within the Armley, Bramley and Wortley Wards from April 1<sup>st</sup> 2010 – March 31<sup>st</sup> 2011. see area plan: *Enable more people to become involved in sport and culture by providing better quality and wider ranging activities and facilities.*

It is key to our delivery to work in partnership with other council departments and providers of sport and active recreation in the West of the city, these include:

Leeds school sports partnership West  
Extended Services  
Leisure Centres  
Schools  
Sports Clubs  
Youth Service

**Project Summary (include a brief description of the main activities, why the project is needed and links to key priorities):**

The core delivery will be holiday provision including Summer and Easter activities and a number of half term opportunities.

The delivery will be coordinated in partnership with Extended Services and Bramley and Armley Leisure Centres.

The aim of the holiday provision will be to provide quality, affordable activities on a local level. The delivery will take place at a number of venues within the local community including schools, sports clubs, parks, multi use games areas and leisure centres.

By working closely with Leisure Centres & Extended Schools/Services clusters it is our intention to build on the holiday programmes delivered in 2009 - 2010, and to continue to target the 20% of young people who aren't taking part in 5 hours of Sport/PE and also children and young people from the more deprived communities in the inner West. Our core target group will be young people 8-19 years of age, however should opportunities be available to provide sport and active activities for younger children or adults then we will provide support where necessary.

It is also our intention to develop and promote a sport coaching scholarship for young sport leaders in the West of the City, in partnership with the Leeds schools sports partnership West. The scholarship aims to provide both financial and professional support for candidates by helping them achieve recognised sporting qualifications and accessing professional mentoring opportunities.

Each potential candidate will need to attend a school or be a member of a sports club

with an LS28 postcode, candidates will be selected by members of the West Leeds Sports Alliance, each successful candidate will then be provided with a 12 month personal development plan.

**Outcomes (summarise the main outcome/output/benefit the project will achieve):**

- Increased numbers of local people accessing local facilities and sport and active opportunities within their communities.
- Accessible opportunities to people in the West of Leeds who don't have the confidence or the opportunities to take part in regular sporting activities within their community.
- To also provide formal qualifications which will enhance personal development, job opportunities and a potential workforce for the local community.

**Project Cost. Please indicate**

**How much the project will cost? (List all partners and their contributions)**

£10,000+

School Sports Partnership Workforce Fund - £1000 for scholarship
