

condition needed an ambulance, but the paramedics could not get the ambulance near, so they parked it elsewhere and had to reach her on foot. This is disgraceful. Also the noise of slamming doors and loud radios is not nice.

The parking timetable is this:- 8.30am to after 9.00am because Tiny Tots do not start until 9.00am. 11.40 to 12.00 noon for Tiny Tots going home. Then 2.30pm or 2.45pm until 3.30pm.

At 2.15pm. almost every school day the ice cream man parks in the T-junction which should be used for 3 point turns, engine running the whole time.

Traffic goes on the whole of school holidays, but parking is not much of a problem.

A turning point on its own would not work as parents/carers wish to get Tiny Tots or Reception children into school. A limited turning point with car park may help, but we would appreciate parking discs for residents to ease congestion at these times. Car parking for teachers and school staff is also inadequate, and more would cause problems.

Yours faithfully
