Notes:

- The revenue well being base budget allocation reflects a 0% inflationary uplift on last year's figures
- 'Carry forward from 10/11' represents the balance of what was not actually spent in 10/11. In some cases Area Committees may have already made allocations against this amount and spend will take place in 11/12.
- The 'total available to allocate' revenue figures represent the amounts for Area Committees to allocate to local priorities over the course of the year (assuming that none of the carry forward amount is already allocated). As in previous years, it is assumed that not all the allocation will be actually spent within the financial year. For budget management purposes it is assumed that £250k will be carried forward into the next financial year. This will be monitored by Officers in Environment and Neighbourhoods over the course of the year
- The ACW capital programme has no base budget in 2011/12 and the remaining funding still to allocate is £191,300.
- The value of schemes which are committed but have remaining funding on them amount to £816K. Approximately 82 schemes.

Net Budget	3,156	100.0%

DESCRIPTION OF WHAT THE BUDGET REPRESENTS:

Revenue costs associated with the operation of the community centres.

DETAIL OF ANY NON CONTROLLABLE ELEMENTS:

Provision of insurance cover and liability
Non-controllable capital asset charges
The CPM management charge consists of a fixed annual fee
NNDR
These elements cannot be effectively monitored or controlled at an area level.

DESCRIPTION OF THE FORMULA USED FOR APPORTIONING BUDGET ACROSS DIFFERENT AREAS:

Budgets apportioned based on actual revenue figures for centres in each area, based on the previous years running costs. These are adjusted through the budget setting process to account for changes in the portfolio and operating costs of each centre.

The CPM management charge is allocated to community centres as a proportion to their overall spend on staff and running costs. Centres with higher operational costs will therefore attract a higher proportion of the management fee. If Centre A's staffing and running costs represent 5% of the total community centre budget then they will attract 5% of the management fee. If Centre B's running costs represent 10% of the total community centre budget then they will attract 10% of the management fee. This would continue until the full 100% has been allocated.

A backlog maintenance budget has been established for all Council assets. This budget is prioritised according to individual service requirements and local needs. Area Committees should ensure that backlog maintenance issues are prioritised locally and fed through to CPM through existing procedures.

REASONS WHY THIS PARTICULAR FORMULA WAS SELECTED:

Suits this function and allows monitoring of costs for individual centres.

DETAIL OF ANY SIGNIFICANT SERVICE / BUDGET VARIATIONS ACROSS THE CITY:

Budgets for each centre depends on size, usage and income. There are therefore significant variations between budgets from centre to centre.

Time lag in receiving meaningful information on budgets centres by centre due to nature of charges (e.g. utility bills) and income.

Seasonal fluctuations affect budgets e.g. utility costs higher in second part of year.
