### Guidance about this document

1. The Licensing Authority recommends that you complete this specially designed pro forma risk assessment to help you decide what should be entered in your operating schedule to show how you will promote the four licensing objectives.
2. Whilst the Licensing Authority cannot insist you use this document it takes the view that it assists responsible authorities in assessing the operating schedule, promotes discussions and partnership working and will reduce the number of representations and hearings.
3. If you do not use this risk assessment pro forma then you will need to demonstrate how you will meet the licensing objectives by providing other supporting evidence via your operating schedule.

### How to use this document

1. This document has four sections which correspond with the four licensing objectives and appendix 1 of our Licensing Policy. In each section you will find information on potential control measures (each with an individual code) which we suggest may help you meet the four licensing objectives.
2. Run through the questions at the beginning of each section and consider the potential control measures listed in the columns beneath.
3. If you are happy to volunteer the control measures as part of your application place a tick in the relevant box in the right hand column. You can then enter the corresponding codes in page 14 of your application form in the boxes which match up with the licensing objectives or simply write "see pro forma risk assessment". These measures will then appear on your licence.
