Key: AY - academic year FSM - free school meals FY - financial year RPT - rate per thousand RPTT - rate per ten thousand

Notes

- 1 - C.H.E.S.S. clusters does not include any secondary schools.
- 2 - On 1 April 2012 the Middleton cluster and the Upper Beeston and Cottingley cluster merged to form the Beeston, Cottingley and Middleton cluster. As some data-sets pre-date this merger, data for some indicators is only available by the previous boundaries. This will be updated over time.
- 3 - On 1 April 2012 Sharp Lane Primary moved from Rothwell to JESS. As some data-sets pre-date this boundary change, data for some indicators is only available by the previous boundaries. This will be updated over time.
- 4 - Data by cluster for these indicators does not add up to the Leeds total, due to some children's records having a missing postcode, or an out of authority postcode. For NEET data, the city-wide total also includes a proportion of young people whose status has expired. For looked after children the postcode used is where the child lived at the point of becoming looked after, not placement postcode.
- 5 - Data for these indicators is by schools within the cluster, not by pupils living in the cluster area.
- 6 - Data for these indicators is by children and young people living in the cluster area, not attending schools in the cluster
- 7 - Data suppressed for instances of fewer than 5. Where the suppressed value for a cluster can be calculated by simple arithmetic from the total, the total is also suppressed (denoted by 'x').
- 8 - Data based on where the young person lived three years previously when they were in Year 11, regardless of where they actually gained the Level 3 qualification
