Does the report contain confidential or exempt information?	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
If relevant, Access to Information Procedure Rule number: Not applicable		
Appendix number: Not applicable		

### Summary of main issues

- Following a national review of Children's Congenital Cardiac Services in England, at its meeting on 4 July 2012, the Joint Committee of Primary Care Trusts (JCPCT) agreed consultation Option B for implementation. At that meeting, the JCPCT agreed the designation of congenital heart networks led by the following surgical centres:
  - Newcastle upon Tyne Hospitals NHS Foundation Trust
  - Alder Hey Children's Hospital NHS Foundation Trust
  - Birmingham Children's Hospital NHS Foundation Trust
  - University Hospitals of Bristol NHS Foundation Trust
  - Southampton University Hospitals NHS Foundation Trust
  - Great Ormond Street Hospital for Children NHS Foundation Trust
  - Guy's and St. Thomas' NHS Foundation Trust
- On 24 July 2012, the Joint Health Overview and Scrutiny Committee (Yorkshire and the Humber) (Joint HOSC) considered the JCPCT's decision, alongside the formal response to the Joint HOSC's previous [October 2011] report. At that meeting, the Joint HOSC agreed to refer the JCPCT's decision to the Secretary of State for Health – on the basis of that decision not being in the interest of the local NHS.
- At its meeting on 16 November 2012 the Joint HOSC agreed its report in support of its referral to the Secretary of State for Health. At that meeting the Joint HOSC also agreed to consider additional information relevant to its review of the JCPCT's decision, including the following:
  - An analysis of National Specialised Commissioning spend (2004/05 – 2011/12);

- Details of the membership/ attendance at the JCPCT and other relevant bodies;
  - A report from the Lead Clinician of the North East and West Yorkshire Paediatric Critical Care Network, regarding the Transport Impact of Proposed Models of Paediatric Cardiac Centralisation in North-East England
4. Attached to this report is a paper prepared by the Lead Clinician of the North East and West Yorkshire Paediatric Critical Care Network, on the Transport Impact of Proposed Models of Paediatric Cardiac Centralisation in North-East England. The author of the report has been invited to present the report , outline the associated methodology and address questions from the Joint HOSC.

## **Recommendations**

- a. That the Joint HOSC considers the details presented and determines any appropriate action and/or scrutiny activity relevant to its review of the decision of the Joint Committee of Primary Care Trusts and the associated referral to the Secretary of State for Health.
