Leeds Award – Leeds Rhinos class of 2003 -2013 nomination

Over the last 10 years Leeds Rhinos have been outstanding in all their endeavours, on and off the field. They are the Best team and will help Leeds become the Best City. On the field they have an outstanding record. Six times Super League Champions, and three times World Champions. The class of 2003 to 2013 have achieved great results, and although we could honour individuals the Rhinos themselves recognise the contribution of every squad player, and every youngster who graduates from the academy to the first team.

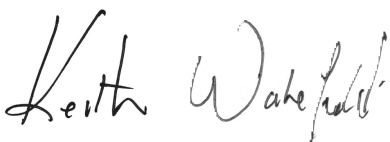

Off the field they are champions too. Driven by Leeds values of community spirit they involve thousands of young people in positive activity, in sport, the arts, dance in health and education. They stand up for what is right, fairness, equality in the game and in life. All the players are role models in the community.

They spread the story of our city round the world, contributing to our reputation as a great city and contributing to economic success.

Leeds Rhinos are an outstanding success and deserve the recognition of the Leeds Award.

- Super League Champions 2004, 2007, 2008, 2009, 2011, 2012
- World Club Challenge winners 2005, 2008, 2012

Yours sincerely
