RESOLVED - That the minutes be received in accordance with Council Procedure Rule 2.2(i).

72 White Paper Motion (in the name of Councillor Lewis) - Integrated Rail Plan

It was moved by Councillor Lewis, seconded by Councillor Hayden that this Council believes the Integrated Rail Plan does not deliver the current Government's promises to improve rail services for the people of Leeds and Yorkshire and follows decades of underinvestment from successive governments.

Council is concerned that the plan does not address the shortage of capacity at Leeds Station or the network around Leeds that we know impacts existing local and national rail services today and will affect future growth until it is resolved.

Council further calls for a swift resolution for residents and businesses in Leeds affected by safeguarded directions that are currently in place.

Council resolves to work with local leaders across the north and midlands on rail improvements; supports the Executive Board's response to the plan; and calls on ministers to provide clarity for Leeds residents and businesses on how and when it will finally deliver the promised rail and mass transit improvements our city desperately needs and deserves.

An amendment was moved by Councillor Golton, seconded by Councillor Hart-Brooke

After the first paragraph, insert a new paragraph:

"Nevertheless, Council does recognise that the HS2 project has been mismanaged by Government and under scrutinised by Northern Leaders. Council regrets the collective lack of leadership on Transport for the North which allowed Northern Powerhouse Rail to be seen as secondary in importance to HS2, particularly in the light of the 2020 National Infrastructure Commission report warning of the unaffordability of delivering both schemes."

In the third paragraph:
Insert after 'Council' and before 'further':

"recognises the significant blight that has been suffered by communities along the proposed route of the now cancelled HS2 eastern leg into Leeds and

Then add a further sentence to the end of the third paragraph:

"The Council will pursue this by working with the DFT to achieve a route into Leeds for HS2 trains from Sheffield that avoids creating a new rail corridor from the South East."

In the final paragraph, insert after 'ministers to' and before 'provide'
"recommit to delivering Northern Powerhouse Rail through Bradford and

The Amended White Paper would now read:

This Council believes the Integrated Rail Plan does not deliver the current Government's promises to improve rail services for the people of Leeds and Yorkshire and follows decades of underinvestment from successive governments.

Council recognises the significant blight that has been suffered by communities along the proposed route of the now cancelled HS2 eastern leg into Leeds and further calls for a swift resolution for residents and businesses in Leeds affected by safeguarded directions that are currently in place. The Council will pursue this by working with the DFT to achieve a route into Leeds for HS2 trains from Sheffield that avoids creating a new rail corridor from the South East.

Council resolves to work with local leaders across the north and midlands on rail improvements; supports the Executive Board's response to the plan; and calls on ministers to recommit to delivering Northern Powerhouse Rail through Bradford and provide clarity for Leeds residents and businesses on how and when it will finally deliver the promised rail and mass transit improvements our city desperately needs and deserves.

A second amendment was moved by Councillor Andrew Carter, seconded by Councillor Lamb

Amend first paragraph to read as follows:

This Council notes over £90billion of rail investment announced in the Integrated Rail Plan but believes it does not appropriately deliver improved rail services for the people of Leeds and Yorkshire and follows decades of underinvestment from successive governments.

Amend second paragraph to read as follows:

Council welcomes the TransPennine Route Upgrade, cutting journey times between Leeds and Manchester from 55 to 33 minutes, but is concerned that the plan does not address the shortage of capacity at Leeds Station or the network around Leeds that we know impacts existing local and national rail services today and will affect future growth until it is resolved.

73 White Paper Motion (in the name of Councillor Robinson) - Commercial Lets

It was moved by Councillor Robinson, seconded by Councillor Amanda Carter that this Council notes with concern the recent YEP article relating to the Fantasia knife store on Ludgate Hill and is deeply concerned about the Council's commercial involvement in those premises.

Council calls for the establishment of a refreshed and more robust policy, including the power of veto, that ensures commercial lets of this nature cannot happen again.

This Council therefore asks for a report to be brought to the February Executive Board addressing this issue, including a review of all current commercial lets and setting out a new proactive policy approach that will ensure council owned premises are never used for this purpose again.

In accordance with Council Procedure Rule 12.4(b) Councillor Bentley's amendment was moved by Councillor Campbell, seconded by Councillor Lay

After first paragraph, add a new paragraph:

This Council also regrets that the current administration refused to adopt an Ethical Landlord Policy as proposed by the Liberal Democrat Group some years ago. Such a policy, through ensuring consistency of values between the Council and organisations trading under its roof, would have avoided this irresponsible association

Delete all after "This Council" and replace with:

welcomes the Partial Closure Order secured against the Fantasia Store on Ludgate Hill by the council's Anti-Social Behaviour Team in partnership with West Yorkshire Police.

Council will not hesitate to take further robust action against any shop in Leeds, regardless of who owns the premises, selling products that fail to meet legal requirements including knives specifically marketed as combat weapons and not utensils for appropriate use.

Council calls for a national review of legislation relating to the sale of knives and for the Government to grant police and councils further powers to tackle shops that sell knives marketed as combat weapons.

74 White Paper Motion (in the name of Councillor Pryor) - Great Jobs Agenda

It was moved by Councillor Pryor, seconded by Councillor Brooks that this Council believes that everyone should be paid the Real Living Wage and is proud to be leading the way by paying its employees the Real Living Wage since 2015. Council notes that the Government has so far failed to ensure the National Living Wage matches the Real Living Wage and so accurately reflects rising living costs.

Council further notes with regret that a worker earning the National Living Wage would today earn £1,930 a year less than a worker earning the Real Living Wage.

Council recognises the devastating impact of Covid-19 on many people's lives including pushing many more into poverty and job uncertainty and supports the establishment of a Fair Work Charter as proposed by the West Yorkshire Mayor.

Council believes that Leeds is ideally placed as a desirable location for businesses and recognises the success of attracting businesses such as Channel 4, Utterberry, Covance/Labcorp, Snowflake, Aspire, and Burberry into the City.

Council is proud that its Employment Agenda is in alignment with the Great Jobs Agenda as we continue to be a key influencer in terms of good employment practice which includes our condemnation of the 'fire and re-hire' practices undertaken by some companies.

Council commits to promoting both the Real Living Wage and the Great Jobs Agenda across the City through our Anchor Institutions who form an integral part of the ambition to make Leeds a Real Living Wage City as this is something that can only be achieved through partnership working across all sectors. Council notes the Leeds Anchors Network contains 13 organisations who employ over 58,000 people in Leeds, and is made up of: Leeds Teaching Hospitals NHS Trust, Leeds Beckett University, Leeds City College, Leeds and York Partnership Foundation NHS Trust, University of Leeds, Leeds College of Building, Leeds Community Healthcare NHS Trust, Leeds Trinity University, Leeds City Council, NHS Digital, Yorkshire Water, British Library and Northern Gas Networks.

Council calls on Government to:

- Introduce the Real Living Wage as a replacement to the National Living Wage to ensure residents of Leeds and across the Country can meet rising living costs.
- Commit to the principles of the Great Jobs Agenda
- Support the establishment of a Fair Work Charter.

An amendment was moved by Councillor Golton, seconded by Councillor Campbell

In paragraph 5, delete the words 'as we continue to be' and replace with however we are concerned that our inconsistent commitment is affecting our credibility in portraying the Council as.

Add an additional sentence at the end of paragraph 5:

This was most famously evidenced through our support for the GMB campaign for better workers' rights at Amazon, whilst at the same time enabling those business practices by hosting that business in Council owned buildings for several years.

Add a further paragraph at the end of the motion:

This Council further commits to publishing an Ethical Landlord Policy to ensure that companies trading under our roof are also fulfilling the above commitments to the Real Living Wage, The Great Jobs Agenda, and the Fair Work Charter.

The Amended White Paper would then read:

A second amendment was moved by Councillor Cohen, seconded by Councillor Stephenson

Delete all after “This Council” and replace with:

welcomes the efforts of the government to help the low-paid through the National Living Wage. According to the Institute of Fiscal Studies, in its first 4 years the NLW led to an increase in the ‘bite’ of the minimum wage (defined as its level as a fraction of the median wage) for those aged 25+ that was greater than the increase over the whole 16-year period prior to that, since the national minimum wage was introduced in 1999, bringing the UK close to the international frontier of minimum wage levels.

Council notes that the NLW rates are decided each year based on the recommendations of an independent advisory group, the Low Pay Commission, which looks at a range of factors including the state of the economy, how many people are in work, and how much people are paying for essentials such as food and housing.

In Leeds the Conservative Group has a track record of supporting progress on minimum wage levels, proposing a budget amendment in 2013 that would have seen the Council introduce the living wage for its staff, an amendment which was unfortunately not supported by the ruling administration at that time.

Council recognises the devastating impact of Covid-19 on many people’s lives, and welcomes the unprecedented amount of financial support provided to help families cope through this period. However moving forward Council also supports the government in its efforts to keep the economy open in order to ensure people can continue to earn a living, in contrast to suggestions from some quarters that the country should go back into lockdown.

Council believes that Leeds is ideally placed as a desirable location for businesses and recognises the success of attracting businesses such as Channel 4, Utterberry, Covance/Labcorp, Snowflake, Aspire, and Burberry into the City. Council resolves to continue to work with the Anchor Institutions and partners to make Leeds an even more attractive place to live, work, and run a business.
