

COUNCIL MEETING – 23rd March 2022

NOTICE OF:	Reference No:	Date Received:	Date Forwarded:
White Paper Amendment	A2 to WP1	22/3/22	22/3/22

Submitted by:	Councillor Ann Forsaith
Relevant Board/Regulatory Panel:	Executive Board
Executive Member/Chair:	Executive Member for Environment and Housing
Relevant Director	Director of Communities, Housing and Environment

Delete all after the first paragraph and insert:

“Council acknowledges the significant challenges that the refuse collection service has been under since the start of the Covid pandemic in 2020. With the lifting of pandemic restrictions Council expects the return of a reliable service without frequent missed collections causing disruption.

Council is aware of the significant impact that increasing amounts of waste have on the environment, and that tackling waste creation and management must be part of its Climate and Ecological Emergency response. The reduction of the amount of waste produced by residents in Leeds would have significant and positive financial benefits for individuals, families, businesses, organisations and the Council.

Council calls for a report to the Executive Board to be submitted by December 2022 setting out an action plan based on the principles of reduce first, then reuse, repurpose, recycle before discard, together with the development of local neighbourhood sharing facilities such as free book, toy and tool libraries, and repair cafes, linked to job creation and training.”

So that the motion reads:

“This Council calls for a comprehensive review of waste management services to ensure they are providing value for money for Leeds residents and meeting our climate goals.

Council acknowledges the significant challenges that the refuse collection service has been under since the start of the Covid pandemic in 2020. With the lifting of pandemic restrictions Council expects the return of a reliable service without frequent missed collections causing disruption.

Council is aware of the significant impact that increasing amounts of waste have on the environment, and that tackling waste creation and management must be part of its Climate and Ecological Emergency response. The reduction of the amount of waste produced by residents in Leeds would have significant and positive financial benefits for individuals, families, businesses, organisations and the Council.

Council calls for a report to the Executive Board to be submitted by December 2022 setting out an action plan based on the principles of reduce first, then reuse, repurpose, recycle before

discard, together with the development of local neighbourhood sharing facilities such as free book, toy and tool libraries, and repair cafes, linked to job creation and training.”

Ann Forsyth
